Benefits, Features, & Angle:

What's AgencyReel 2.0?

This is an “all-in-one” A.I.-based software that builds and runs an agency business for you entirely from the ground up, finding clients, creating many types of content, & smartly auto-scheduling & posting it.

This new upgraded version includes many new features like a built-in viral video creator, the ability to find & curate viral content, Agency Rights, & even upgraded ‘content stream technology’ that smartly posts a mix of content 24-7 100% FOR YOU as if you ran a full-teamed agency.

What's the Main Angle?

AgencyReel 2.0 will allow you to position yourself, do the work, and bill customers as a full-fledged agency with a team while working a few minutes each day. The software will do the client-finding, video content making, and strategic re-scheduling for you w/ the “smart” technology.

Video and agency apps are always among best sellers, but, users are finding out that to make decent money, you need to work 24-7 doing all the work yourself.

With AgencyReel 2.0, however, you can do the work of an entire video/social agency a few minutes at the start of each week.

Features & Benefits

You'll get all these BRAND NEW & Upgraded Features...

Built-in Viral Video Creation Engine - make exciting trending & viral videos about any topic w/ this brand new viral video creator.

Upgraded A.I. “Smart Stream” Scheduling —let the app post a variety of varied content during the week (w/ no manually scheduling), including a mix, graphics, posts, & now full videos like a major agency

Viral Topics & Hashtags Tech. - find viral content ideas from YouTube, Google, Reddit & rank them with popular local hashtags to guarantee your agency clients get engagement
