

December Camp Week One: December 1st - December 5th

Monday, December 1st

10:30AM - 1:30PM

Fizzy Paint Explosion

- Get ready for a bubbling burst of color and science! Campers will mix baking soda with vibrant dye to make thick, paintable paste—and then let the magic begin when vinegar droplets meet the surface. As the colors fizz, bubble, and swirl, each piece transforms into a lively, erupting masterpiece. It's a low-prep STEAM project loaded with wow moments, where art and chemistry collide in the most exciting way!

Mini Winter Scenes

- Campers' imaginations will soar as they create an enchanting winter diorama! Using boxes and craft supplies, they will design a 3D scene featuring snowy landscapes or cozy cabins.

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Tie-Dye Towel

- It's time to mix, twist, and dye! Campers will create their own colorful, one-of-a-kind towel using the classic tie-dye technique.

Kid's Business Faire

- Time to think like an entrepreneur! Campers will dream up their own creative brands, designing fun logos and packaging for their handmade products. They'll explore exciting ways to showcase and "sell" their creations—because every great artist deserves an audience!

2PM - 5PM

Creative Clay Sculpting

- Let's get messy and mold something amazing! Campers will shape air-dry clay into adorable creatures, imaginative figures, or cool objects. With every pinch, roll, and sculpt, they'll bring their ideas to life in a 3D masterpiece!

STEM Challenge: Color Changing Slime

- Concoct a batch of color changing slime!

Jewel Crafting

- Shimmer, sparkle, and shine! Step into the world of jewelry design as campers create stunning bracelets, dazzling necklaces, and trendy rings. Using colorful beads, shimmering charms, and delicate wire, they'll craft accessories as unique as their own creativity. It's time to rock their sparkle!

Kid's Business Faire

- From artist to entrepreneur! Campers will turn their handmade creations into must-have products by designing eye-catching logos, crafting professional packaging, and brainstorming fun ways to market their work. Whether they dream of selling their custom jewelry, cool clay figures, or trendy woven bracelets, they'll learn how to bring their brand to life!

Life Skills Gained

- **Scientific Curiosity & Exploration** – By experimenting with fizzing reactions in the *Fizzy Paint Explosion* and color-changing slime, campers discover how chemistry connects to creativity, encouraging them to ask “what happens if...?” and explore with confidence.
- **Design & Visualization** – Creating winter dioramas, jewelry, and clay sculptures sharpens campers’ ability to imagine an idea in 3D and bring it to life with planning, layering, and creative problem-solving.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Tuesday, December 2nd

10:30AM - 1:30PM

STEM Challenge: Bottle Rockets!

- 3,2,1....blast off! Campers will work together to assemble a launcher, rocket, funnel, and launch mixture to experience out of this world fizzy fun!

Mini Terrariums

- Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to craft their own mini ecosystems. They'll create a lush little paradise in a jar—a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Clay Models

- Mold, sculpt, and bring your ideas to life! Using colorful tools and air-dry clay, campers will create miniature figures, animals, or imaginative objects, adding fun details to make their creations extra special.

LUSH Holiday Bath Bomb Demo

- Vibrant colors, delightful smells, fizzy feelings. We've partnered with our friends at LUSH Valley Fair for a bath bomb making experience sure to bubble over with fun!

Kid's Business Faire

- Time to turn creativity into cash! Campers will become mini-entrepreneurs, designing their own logos, packaging, and branding for their handmade creations. They'll learn how to market their masterpieces and maybe even dream up the next big thing!

2PM - 5PM

Frame it up!

- Bling it, paint it, make it POP! Campers will transform ordinary picture frames into dazzling, personalized masterpieces! With shimmering beads, vibrant paints, funky stickers, and more, they'll craft a frame as unique as their favorite photos. Get ready to glitter, glue, and go wild!

Candle Making

- Melt, mix, and mold your own candle creations! Campers will choose fun colors and delightful scents as they craft unique candles, perfect for gifts or a cozy personal touch at home.

Snowman Canvas Creations

- Create a vibrant snowman masterpiece on canvas. Whether it's classic or whimsical, get ready for a frosty fun time painting unique winter art!

Kid's Business Faire

- It's showtime! Campers will develop their own brand identities, designing logos and packaging to showcase their handcrafted products. They'll gain confidence in marketing and presenting their work like real entrepreneurs!

Life Skills Gained

- **Design & Personalization** – Campers learn how to craft and customize everyday objects, turning simple items into unique works of art.
- **Responsibility & Nature Awareness** – Creating and caring for a mini terrarium introduces campers to plant care and eco-consciousness.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Wednesday, December 3rd

10:30AM - 1:30PM

Watercolor Painting

- Dive into a world of color! Campers will experiment with watercolor techniques like blending, layering, and brushwork to create stunning, one-of-a-kind paintings.

STEM Challenge: Recycled Art & Invention Lab!

- Get ready to unleash your imagination! Campers will dive into a treasure trove of recycled materials and robot model parts to design and build their own one-of-a-kind creations. From gravity-defying marble runs to wild, whimsical inventions, this hands-on experience invites young makers to explore sustainability, engineering, and art—all at once!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Succulent Potting

- Campers will embark on an adventure to grow a green thumb as they make a one-of-a-kind mini potted garden using live succulents.

Kid's Business Faire

- Future entrepreneurs in the making! Campers will develop their brand identities, design logos, and work on packaging ideas to bring their artistic products to life.

2PM - 5PM

DIY Name Garlands

- Let's turn names into masterpieces! Campers will cut, paint, and decorate their very own bold and vibrant name garlands using colorful paper, sparkling embellishments, and creative designs! Whether it's glittery, neon, or full of funky patterns, their banners will be as unique as they are!

Holiday Memory Jars

- Campers will decorate a jar and fill it with notes about their favorite holiday memories and special wishes. This charming keepsake is a great way to celebrate the season and can be opened each year to relive those magical moments!

STEM Challenge: Marbled Paper

- Kids will use paint and paper to spread, swirl, and transfer colors into awesome marbled patterns. As they experiment with layering and mixing, they'll see how colors interact and flow—turning simple supplies into a dazzling display of science and art combined. Every piece is a one-of-a-kind masterpiece!

Kid's Business Faire

- Time to think like an entrepreneur! Campers will bring their creative business ideas to life by designing logos, brainstorming branding concepts, and planning product packaging.

Life Skills Gained

- **Creativity & Self-Expression** – From watercolor paintings to name garlands and marbled paper, campers explore artistic freedom while learning how to express their unique ideas in colorful, personal ways.
- **Innovation & Problem-Solving** – In the *Recycled Art & Invention Lab*, kids transform everyday materials into imaginative creations, practicing resourcefulness, engineering skills, and out-of-the-box thinking.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Thursday, December 4th

10:30AM - 1:30PM

Canvas Painting

- Unleash your inner artist! Campers will use acrylic paints and brushes to create a one-of-a-kind masterpiece on canvas, exploring color blending, brush techniques, and creative expression.

Wand Making

- Abracadabra! Campers will design and craft their own magical wands using paint, gems, and sparkling embellishments to bring their enchanted creations to life.

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

DIY Snow Globes

- Create magical snow globes filled with whimsy and wonder! Campers will use mason jars, water, and glitter to design unique scenes and bring their visions to life.

Kid's Business Faire

- It's time to think BIG! Campers will transform their creative ideas into real brands, designing eye-catching logos, packaging their handmade treasures, and planning fun ways to sell their work! Who knows? They could be the next big trendsetters!

2PM - 5PM

Camo-flies

- Ready to trick the eye? Campers will paint sneaky little flies and master the art of camouflage—blending them seamlessly into colorful backgrounds! It's a thrilling test of creativity and observation, perfect for young artists who love a challenge. Can YOU spot the hidden flies?

STEM Challenge: Bubble Lamp!

- Learn the science behind oil and water and what makes lava lamps so fun. Campers will mix vegetable oil and liquid watercolor, pouring it inside the body of a bubble lamp! Working together, they'll wire a set of lights, engineer the bubble pump to keep the bubbles inside the lamp moving.

Painted Pottery

- Let's get hands-on with pottery! Campers will bring ceramic pieces to life with bold colors, wild patterns, and unique designs. Whether they create a funky mug, a dazzling dish, or a decorative masterpiece, their pottery will be one-of-a-kind!

Kid's Business Faire

- Time to launch a brand! Campers will design their own logos, package their handmade treasures, and brainstorm fun ways to sell them! It's a fast-paced, exciting journey into the world of business—where creativity meets entrepreneurship!

Life Skills Gained

- **Creativity & Self-Expression** – Through painting, wand making, and snowglobe designing, campers will explore different artistic techniques and styles.
- **Observation & Attention to Detail** – Camouflage painting sharpens visual perception and blending skills.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Friday, December 5th

10:30AM - 1:30PM

Tote Bag

- Let's turn plain tote bags into bold fashion statements! Campers will paint, stamp, and decorate their very own one-of-a-kind fabric bags. Whether it's cute, cool, or crazy creative, their designs will be as unique as they are!

Slime

- Who's ready for the ultimate slime fest?! Campers will mix up gooey, stretchy, squishy slime in wild colors and fun textures! Add glitter? Sure! Make it glow? Why not?! It's messy, science-packed fun at its finest!

Pizza Making @ CPK (12PM - 1PM)

STEM Challenge: Racing Robots Speed, Crawl, Slither!

- Campers become robotics engineers as they race their very own walking, crawling, or slithering robots! Whether it's a speedy dragon bot, a snake that slinks across the floor, or a clever crawler built for agility—this electrifying session combines creativity, problem-solving, and friendly competition. Ready, set, robot!

Kid's Business Faire

- Entrepreneurs, assemble! Campers will brand their creations, design eye-catching logos, and package their products like pros! It's a fun, hands-on intro to business, turning creativity into something marketable.

2PM - 5PM

Tye-Dye T-shirts

- Let's get messy in the best way possible! Campers will twist, fold, and splash vibrant dyes onto their own t-shirts, creating wild, one-of-a-kind patterns! From bold spirals to funky stripes, every design is a wearable masterpiece!

Scratch Art

- Hidden colors, secret surprises! With a simple scratch, campers will uncover bright, rainbow hues hiding beneath a dark surface. This mesmerizing art technique is all about contrast, texture, and a little bit of mystery!

Collaborative Young Art Banner

- It's time to GO BIG! Campers will collaborate on a larger-than-life Young Art banner, bringing individual ideas together into a jaw-dropping, group-made work of art! Think bold colors, wild creativity, and teamwork at its finest!

Kid's Business Faire

- Future business moguls, let's go! Campers will finalize their brand, polish their packaging, and get ready to sell their awesome creations.

This is where art meets entrepreneurship, turning creativity into a fun, hands-on business challenge!

Life Skills Gained

- **Scientific Exploration** – Making slime introduces fun chemistry concepts and hands-on experimentation.
- **Team Collaboration** – Working together on a large-scale banner teaches cooperation, communication, and shared artistic vision.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Weekend Camp Sample Schedule

Each weekend we offer a variety of exciting activities designed to keep your camper engaged and having fun! Weekend schedules include a mix of our most popular activities, which you can view below.

Please note that activities vary from day to day based on camper interests and materials available.

Sample Activities Include

Drawing:

Learn essential sketching skills, practice proportions, study shading, and identify simple shapes within complex subjects. Break the rules with tricks of the trade as taught by the art masters!

Painting:

Create a masterpiece one brushstroke at a time! Use layers to add depth, colors to add contrast, and learn techniques to add details that make your art piece stand out.

3D Printing:

Explore the wonders of CAD using Nomad Sculpt!
Learn the essentials of 3D design, print your creations, and paint them for the finishing touch.

STEM:

Ignite your inner scientist with explosively fun experiments!

Make independent discoveries, study the scientific process, and engineer from your imagination.

Challenge yourself to try new things, ask questions, and think outside of the box. Learn concepts in coding/ robotics, understand principles in physics and chemistry, and invent unique solutions to real-world problems.

Clay Sculpting:

Build your favorite characters, animals, landscapes, and more in 3D form!

Use malleable air-dry clay to mix unique colors, mold simple shapes, and create your sculpture one step at a time.

Digital Animation:

Bring magical stories to life with hand-drawn animations in Procreate!

Explore lines, shapes, and colors using loopable time and rhythm.

Dive into this new form of art with step-by-step guidance from an engaging guide.

Crafting:

Tap into your creative genius as you transform simple materials into works of art!

Turn paper into notebooks, cardboard into houses, or popsicle sticks into a musical instrument.

Let your creativity run wild as you invent from scratch!

Slime Making:

Learn the essentials of slime, from choosing the right ingredients to achieving the perfect consistency. Experiment with various textures, from fluffy to crunchy, and colors to create unique and satisfying slime sensations.

Wand Making:

Abracadabra! Campers will design and craft their own magical wands using paint, gems, and sparkling embellishments to bring their enchanted creations to life.

Mini Terrariums:

Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to craft their own mini ecosystems. They'll create a lush little paradise in a jar—a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

December Camp Week Two: December 8th - December 12th

Monday, December 8th

10:30AM - 1:30PM

Creative Cover-Ups

- Get ready to paint, splatter, and doodle your way to the ultimate customized artist apron! Using fabric paints, markers, and wild embellishments, aspiring artists will transform plain aprons into bold, colorful, and totally YOU designs! Rock your creation while making more works of art!

Frosty Animal Portraits

- Make frosty friends come to life on canvas! Campers can paint adorable winter animals, like penguins, polar bears, or owls, set against a snowy backdrop. They'll get creative and play with textures to show off fluffy fur and soft feathers.

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Tiny Towns

- Think BIG but work TINY! Young visionaries will paint, design, and create their own mini neighborhoods using wooden houses, clay trees, little characters, and anything their imagination dreams up! Each participant builds a one-of-a-kind town, making it as wild, wacky, or realistic as they want!

Kid's Business Faire

- Lights, camera, entrepreneurship! Budding entrepreneurs will finalize their creations, design epic packaging, and bring their brands to life! Whether they dream of selling art, crafts, or creative products, this is their chance to shine as young business moguls!

2PM - 5PM

Sunbeam Catchers

- It's time to light up your imaginative power! Future artists will craft dazzling suncatchers using colorful tissue paper and pressed flowers. Hang them in a window and watch the sunlight bring them to life with a magical glow!

Story Stones

- Paint, Mix & Tell! Get ready to paint, imagine, and tell epic tales! Young innovators will decorate small stones with fun images—animals, symbols, characters, and more! Then, they'll shuffle them up and create one-of-a-kind stories with every mix!

STEM Challenge: Slime Circuits!

- Concoct a batch of color changing slime!

Kid's Business Faire

- Brand It & Sell It! Young entrepreneurs, it's time to shine! Rising innovators will polish their branding, design eye-catching packaging, and get ready to "sell" their artistic masterpieces like real business pros!

Life Skills Gained

- **Creative Expression & Design Thinking** - From apron fashion to frosty animal portraits, kids learn to express their individuality, think outside the box, and turn blank canvases (or aprons, or houses, or stones) into one-of-a-kind creations.
- **Problem-Solving & Innovation** - STEM activities like Slime Circuits ignite critical thinking, letting campers tinker, test, and discover solutions (a.k.a. the "fail, laugh, try again" method).

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Tuesday, December 9th

10:30AM - 1:30PM

Cardboard City Builders

- Build Your Own Mini Metropolis! Time to become an architect! Future designers will construct an entire city using recycled cardboard—skyscrapers, shops, parks, and more! Add paint, decorations, and bring your dream town to life!

Tape Resist Art

- Peel & Reveal the Magic! This project is full of surprises! Participants will lay down painter's tape in fun patterns, then paint over it with bold colors. When the tape is peeled away, a stunning hidden design appears like magic!

Lunch @ CPK (12PM-12:30PM) Learn more about ordering lunch for your camper

Seashell Necklace

- A Piece of the Ocean! Time to bring the beach to life! Young artists will transform real seashells into beautiful necklaces by adding color, glitter, and creative flair. A perfect souvenir or handmade gift!

LUSH Bath Bomb Demo

- Vibrant colors, delightful smells, fizzy feelings. We've partnered with our friends at LUSH Valley Fair for a bath bomb making experience sure to bubble over with fun!

Kid's Business Faire

- Young entrepreneurs, it's time to shine! Visionary creators will finalize their brand, design packaging, and prepare to "sell" their artistic products in a fun, hands-on experience!

2PM - 5PM

Paper Lanterns

- It's time to bring the glow! Campers will craft beautiful paper lanterns using markers, paint, and glitter. The best part? Adding LED lights to make them shine bright like a masterpiece!

Snowy Sock Puppets

- Frosty, fun, and full of personality! Kids will dream up wintry characters—like snowmen, penguins, or even silly reindeer—and bring them to life as playful puppets. Once their chilly creations are ready, they can star in a mini puppet show filled with laughter, imagination, and a sprinkle of winter magic!

STEM Challenge: Bottle Rockets!

- 3,2,1....blast off! Campers will work together to assemble a launcher, rocket, funnel, and launch mixture to experience out of this world fizzy fun!

Kid's Business Faire

- Time to turn ingenuity into a business! Young changemakers will finalize their branding, design packaging, and prepare to showcase their handmade products in a fun, interactive fair!

Life Skills Gained

- **Engineering & Creativity:** Designing a city teaches structure, balance, and imagination!
- **Storytelling & Performance:** Puppets encourage imaginative play & confidence on stage!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Wednesday, December 10th

10:30AM - 1:30PM

STEM Challenge: Recycled Art & Invention Lab!

- Get ready to unleash your imagination! Campers will dive into a treasure trove of recycled materials and robot model parts to design and build their own one-of-a-kind creations. From gravity-defying marble runs to wild, whimsical inventions, this hands-on experience invites young makers to explore sustainability, engineering, and art—all at once!

Succulent Potting

- Campers will embark on an adventure to grow a green thumb as they make a one-of-a-kind mini potted garden using live succulents.

Painted Rock Snow Critters

- Frosty, funny, and full of charm! Young creators will transform ordinary rocks into whimsical winter critters bursting with personality. From silly snowmen to frosty friends with big grins, each rock becomes a playful, chilly character ready to bring the magic of winter to life. It's cozy creativity with a frosty twist!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Sand Bottle Masterpieces

- Layer It Up! Visionaries will pour, swirl, and layer vibrant sands inside glass bottles, creating mesmerizing, one-of-a-kind designs that they can shake up and admire forever!

Kid's Business Faire

- Turn Creations into a Brand! Young leaders will finalize logos, design packaging, and get their artistic products ready to showcase and "sell!"

2PM - 5PM

STEM Drone Flying Challenge

- Learn how to fly drones, controlling via an iPad! Work in teams to see who can land their drone the most efficiently.

Slime-tastic Creations

- Stretch, Squish & Sparkle! Campers will mix, swirl, and stretch their own squishy slime with glitter, beads, and cool textures! Who knew science could be so much fun?!

Snowmen Plate Pals

- Campers will create adorable snowmen using paper plates, markers, and fun craft supplies. They'll bring their snowman to life with scarves, hats, and quirky features, making a cheerful winter decoration to display at home!

Kid's Business Faire

- From Artist to Entrepreneur! Campers will finalize their products, design eye-catching packaging, and prep their creations for their big showcase!

Life Skills Gained

- **Patience & Precision:** Layering sand into bottles teaches careful planning & design!
- **Sensory Science:** Making slime is a fun intro to chemistry!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Thursday, December 11th

10:30AM - 1:30PM

Snowy GIF-tastic Animations

- Bring winter wonder to life! Young visionaries will sketch and animate their very own snowy scenes—think twinkling lights, falling snowflakes, dancing snowmen, and frosty friends. With each loop, their creations

will sparkle, move, and glow with holiday cheer. It's digital magic that makes winter come alive on screen!

Swirl & Pour Painting

- Liquid Art Magic! Get ready to pour, swirl, and mix colors into mind-blowing abstract art! With the magic of acrylic pouring, each canvas becomes a one-of-a-kind masterwork full of dreamy swirls and color explosions!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

STEM Challenge: Bubble Lamp!

- Learn the science behind oil and water and what makes lava lamps so fun. Campers will mix vegetable oil and liquid watercolor, pouring it inside the body of a bubble lamp! Working together, they'll wire a set of lights, engineer the bubble pump to keep the bubbles inside the lamp moving.

Kid's Business Faire

- Time to polish up those artistic products! Young changemakers will finalize branding, logos, and packaging for their awesome handmade creations—because who says art can't be a business?

2PM - 5PM

Sticker Squad

- Calling all future sticker designers! Rising innovators will create custom digital stickers featuring fun characters, cool quotes, and bold patterns! Whether for journals, messages, or digital collages, these stickers will be uniquely YOU!

STEM Blast-Off Rockets

- 3...2...1... Liftoff! Future engineers will build their own paper rockets, complete with paint, paper fins, and cool designs. Will your rocket be the fastest, the tallest, or the most colorful? Time to find out!

Pastel Pop Art

- Get ready for an art experiment full of surprises! Using oil pastels and watercolors, young creators will discover how oil repels paint, revealing hidden designs! Every creation will burst with color and artistic ingenuity!

Kid's Business Faire

- Creators to CEOs! Time to polish up those artistic brands. Young entrepreneurs will finalize logos, packaging, and product displays to bring their creative businesses to life.

Life Skills Gained

- **Tech & Creativity:** Animation builds digital art skills & patience!
- **Art Meets Science:** Pastel resist art is a fun way to explore artistic chemistry!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Friday, December 12th

10:30AM - 1:30PM

Glow & Flow Stained Glass

- Step into the shimmering world of Art Nouveau! Young artists will design stunning “stained glass” art using colorful tissue paper or cellophane that glows beautifully in the light. Hang it in a window and watch the colors dance like magic!

STEM Challenge: Tower Takeoff

- Ready, set, build! Using only cups and craft sticks, teams will race against the clock to construct the tallest, strongest tower. But beware—one wrong move, and CRASH! Who will reach new heights of originality?

Pizza Making @ CPK (12PM - 1PM)

Mystery Box Sculpting

- What will you make when you can't see your supplies? Young artists will reach into a mystery box, grab random craft materials, and turn them into wild sculptures, funny creatures, or unexpected works of art! No peeking—just pure expressiveness and imagination!

Kids Business Faire

- Branding Like a Pro! Young innovators will polish their logos, packaging, and product displays, preparing for a mini business showcase where their visionary ideas shine!

2PM - 5PM

Festive Frame Fun

- Campers will decorate wooden photo frames with vibrant paints, glitter, and embellishments. They'll personalize the frames to showcase favorite holiday photos, creating a special keepsake or a thoughtful gift for loved ones!

Brick Battle: Lego Challenge

- It's a race against the clock! Using Lego bricks, future engineers will compete in fun, fast-paced building challenges that test their problem-solving and inventive flair! Who will build the most epic structure?

STEM Challenge: Racing Robots Speed, Crawl, Slither!

- Campers become robotics engineers as they race their very own walking, crawling, or slithering robots! Whether it's a speedy dragon bot, a snake that slinks across the floor, or a clever crawler built for agility—this electrifying session combines creativity, problem-solving, and friendly competition. Ready, set, robot!

Kids Business Faire

- Time to think like an entrepreneur! Future business leaders will finalize their logos, design packaging, and prepare their creations for a mini business showcase! Who's ready to launch their own creative brand?

Life Skills Gained

- **Improv & Problem-Solving:** Turn random materials into something amazing!
- **Engineering & Strategy:** Think fast & build big with Legos!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Weekend Camp Sample Schedule

Each weekend we offer a variety of exciting activities designed to keep your camper engaged and having fun! Weekend schedules include a mix of our most popular activities, which you can view below.

Please note that activities vary from day to day based on camper interests and materials available.

Sample Activities Include

Drawing:

Learn essential sketching skills, practice proportions, study shading, and identify simple shapes within complex subjects. Break the rules with tricks of the trade as taught by the art masters!

Painting:

Create a masterpiece one brushstroke at a time! Use layers to add depth, colors to add contrast, and learn techniques to add details that make your art piece stand out.

3D Printing:

Explore the wonders of CAD using Nomad Sculpt!
Learn the essentials of 3D design, print your creations, and paint them for the finishing touch.

STEM:

Ignite your inner scientist with explosively fun experiments!
Make independent discoveries, study the scientific process, and engineer from your imagination.
Challenge yourself to try new things, ask questions, and think outside of the box.
Learn concepts in coding/ robotics, understand principles in physics and chemistry, and invent unique solutions to real-world problems.

Clay Sculpting:

Build your favorite characters, animals, landscapes, and more in 3D form!
Use malleable air-dry clay to mix unique colors, mold simple shapes, and create your sculpture one step at a time.

Digital Animation:

Bring magical stories to life with hand-drawn animations in Procreate!
Explore lines, shapes, and colors using loopable time and rhythm.
Dive into this new form of art with step-by-step guidance from an engaging guide.

Crafting:

Tap into your creative genius as you transform simple materials into works of art!

Turn paper into notebooks, cardboard into houses, or popsicle sticks into a musical instrument.
Let your creativity run wild as you invent from scratch!

Slime Making:

Learn the essentials of slime, from choosing the right ingredients to achieving the perfect consistency. Experiment with various textures, from fluffy to crunchy, and colors to create unique and satisfying slime sensations.

Wand Making:

Abracadabra! Campers will design and craft their own magical wands using paint, gems, and sparkling embellishments to bring their enchanted creations to life.

Mini Terrariums:

Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to craft their own mini ecosystems. They'll create a lush little paradise in a jar—a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

December Camp Week Three: December 15th - December 19th

Monday, December 15th

10:30AM - 1:30PM

Soap-tacular Creations

- Mix, mold, and create colorful, scented soaps in fun shapes! Young creators will get hands-on with glycerin soap, essential oils, and bright dyes to make unique bars they can use or gift to friends and family. Clean hands, happy hearts!

STEM Soaring Creations

- Time to take flight! Participants will craft and decorate their own paper airplanes, experimenting with different designs to see whose creation flies the farthest! Will your plane soar to victory or take a nosedive? Let's find out!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Magical Potions

- Bubbling, fizzing, and glowing—what's the secret formula? Future scientists will mix up their own magical potions using color-changing reactions, glitter, and a touch of imagination. It's part science, part art, and all fun!

Kid's Business Faire

- Create. Brand. Sell. Young entrepreneurs will finalize their brand, create a fun logo, and design packaging to present their creations for the Young Art mini business showcase! Who's ready to launch their own creative business?

2PM - 5PM

Terrarium Treasures

- Build a Mini World! Get ready to dig, design, and decorate as we create magical, self-sustaining mini gardens! Participants will choose their favorite plants, layer colorful stones, and add fun decorations to craft their own tiny enchanted world inside a jar.

Winter Emoji Express

- Chill out and get expressive! Ever wished you could design your own one-of-a-kind winter emoji? Now's your chance! From silly snowmen to frosty faces, cozy mugs of cocoa to sparkling snowflakes, kids will create emojis that capture the magic (and moods!) of the season. Cool, creative, and totally YOU—because winter deserves its own set of emojis!

STEM Challenge

- Dive into the world of STEM, experimenting, engineering, hypothesizing, and more. Campers will engage with various scientific and mathematical methods, exploring and strengthening their critical thinking and problem solving skills.

Kid's Business Faire

- It's time to launch a creative empire! But this isn't just any business—young innovators will turn their rock creatures into the hottest collectibles and learn the tricks of branding, packaging, and sales.

Life Skills Gained

- **Creativity & Chemistry:** Experiment with colors & scents in soap-making!
- **Eco-Creativity:** Learn how to design and care for a mini ecosystem!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Tuesday, December 16th

10:30AM - 1:30PM

Masked Marvels

- Step into a world of mystery, adventure, and fun! Young visionaries will design their own dazzling mask—will you be a fearless superhero, a fierce jungle creature, or something completely out of this world? With feathers, glitter, and bold colors, your mask will be as unique as you are!

Name It! Frame It! Winter Edition

- Your name, your sparkle, your creation! Transform your name into a frosty masterpiece filled with snowflakes, icy patterns, and cozy winter designs. From shimmering letters to snowy doodles, this is your chance to turn simple letters into a magical work of art that shines with seasonal spirit!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

STEM Challenge: Pattern Beading

- Little designers turn into master pattern makers in this hands-on activity! Using colorful beads and string, kids will explore sequencing, symmetry, and repetition as they create eye-catching designs. From simple color patterns to intricate arrangements, each strand becomes a unique work of art. Along the way, they'll strengthen fine motor skills, practice math concepts, and express their creativity—because every bead tells a part of their story!

LUSH Bath Bomb Demo

- Vibrant colors, delightful smells, fizzy feelings. We've partnered with our friends at LUSH Valley Fair for a bath bomb making experience sure to bubble over with fun!

Kid's Business Faire

- Time to turn those creative ideas into a business! Young entrepreneurs will design their own brand, craft logos, and package up their awesome

works of art. Who knows? This might be the start of a future creative empire!

2PM - 5PM

Glassy Creations

- Let's turn everyday glass into something extraordinary! Participants will paint, decorate, and design glass jars and vases, creating shimmering, one-of-a-kind pieces perfect for home decor or the ultimate handmade gift!

Mosaics & Masterpieces

- Tiny pieces, BIG imagination! Young innovators will piece together colorful glass or paper tiles to form breathtaking mosaic designs. Whether it's a cool pattern, an animal, or a surprise abstract creation, each work of art will be as unique as its creator!

STEM Drone Flying Challenge

- Learn how to fly drones, controlling via an iPad! Work in teams to see who can land their drone the most efficiently.

Kid's Business Faire

- Time to take those artistic skills to the next level—business mode activated! Participants will design fun packaging, create eye-catching logos, and learn how to present their signature works like pro entrepreneurs.

Life Skills Gained

- **Self-Expression & Identity** - From designing masks to framing their own names in frosty sparkle, kids explore who they are and how to show it proudly through art.
- **Math & Pattern Recognition** - The beading challenge sneaks in math magic—sequencing, symmetry, and problem-solving—while hands stay busy and imaginations stay lit.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Wednesday, December 17th

10:30AM - 1:30PM

Holiday Pop Art Portraits

- Bright, bold, and bursting with holiday cheer! Kids will dive into the world of Pop Art to create dazzling winter-themed self-portraits or portraits of friends—complete with candy-cane stripes, twinkling lights, and frosty patterns that *POP* right off the page. Inspired by Andy Warhol's iconic style, these portraits will shine with seasonal spirit and colorful holiday magic!

STEM Challenge

- Dive into the world of STEM, experimenting, engineering, hypothesizing, and more. Campers will engage with various scientific and mathematical methods, exploring and strengthening their critical thinking and problem solving skills.

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Bath Bomb Bonanza

- BOOM! Watch your creations fizz and swirl! Young scientists will mix up colorful, scented bath bombs using baking soda, citric acid, and glittery fun. Whether it's a lavender dream, a citrus blast, or a unicorn explosion, every bath bomb is a masterwork!

Kid's Business Faire

- From product to packaging—time to bring those creative goods to market! Young entrepreneurs will craft logos, design packaging, and prepare to showcase their handmade works of art like true kid-preneurs.

2PM - 5PM

Tie-Dye Towel Party

- Get ready to swirl, twist, and dye! Campers will transform plain towels into eye-popping, tie-dye creations with vibrant colors and funky patterns—perfect for summer adventures at the beach or pool!

Rockin' Winter Art

- Transform smooth stones into colorful winter masterpieces! Using vibrant paints, campers can create snowmen, festive scenes, or inspiring messages. These unique rocks make great decorations or thoughtful gifts to spread cheer this season!

Santana Row Farmers Market Excursion

- Campers will explore the lively farmers market, meeting local farmers and artisans while discovering fresh produce and handmade goods.

Kid's Business Faire

- It's time to take those creative products to market! Campers will refine their branding, craft unique packaging, and prepare to showcase their handmade masterpieces like true young entrepreneurs.

Life Skills Gained

- **Science & Chemistry:** Discover the fizzy magic behind bath bombs!
- **Color Theory & Design:** Master the magic of tie-dye and vibrant patterns!

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Thursday, December 18th

10:30AM - 1:30PM

DIY Snow Globes

- Shake it up and watch the magic happen! Young creators will design their own shimmering snow globes—adding figurines, glitter, and water to create a mesmerizing winter wonderland inside a jar. A keepsake to treasure forever!

Cardboard Creations

- From box to brilliance! Kids will transform simple cardboard into 3D masterpieces—robots, animals, castles, or anything their imagination dreams up. A little paint, glue, and creativity go a long way in this ultimate crafting challenge!

Lunch @ CPK (12PM-12:30PM) [Learn more about ordering lunch for your camper](#)

Winter Keychain Creations

- Design it, bead it, sparkle it! Kids will craft their very own winter-themed keychains, inspired by frosty blues, twinkling snowflakes, and festive holiday cheer. Each keychain becomes a unique accessory—perfect for decorating backpacks, gifting to friends, or adding a touch of seasonal magic to their day!

Kid's Business Faire

- It's time to brand, package, and prepare for the big sell! Future entrepreneurs will finalize their unique product designs, create eye-catching logos, and get ready to showcase their handmade goods like real young visionaries!

2PM - 5PM

STEM Challenge

- Dive into the world of STEM, experimenting, engineering, hypothesizing, and more. Campers will engage with various scientific and mathematical methods, exploring and strengthening their critical thinking and problem solving skills.

Bottle Your Art

- Turn an ordinary water bottle into an extraordinary work of art! Using paint, stickers, glitter, and more, participants will personalize their own reusable bottles—showing off their style while helping the environment. Hydration just got a serious glow-up!

Scenic Wonders

Bring breathtaking landscapes to life! Whether it's a dreamy sunset, a misty mountain, or a sparkling ocean, young artists will use watercolors or acrylics to create stunning scenery on canvas. Every brushstroke tells a story!

Kid's Business Faire

- Detailed touches before the big reveal! Future business leaders will refine their branding, create eye-catching packaging, and prep their products for a fun showcase. Time to think like young entrepreneurs!

Life Skills Gained

- **Creativity & Innovation** - From cardboard robots to painted bottles, kids learn to see ordinary materials in extraordinary ways—thinking outside the box (literally).
- **Problem-Solving & Critical Thinking** - The STEM Challenge pushes them to experiment, hypothesize, and engineer solutions—boosting logical reasoning and resilience when things don't work the first time.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Friday, December 19th

10:30AM - 1:30PM

Colorful Ceramics

- Plain vases? Not anymore! Participants will transform ordinary ceramic pieces into dazzling works of art using vibrant paints, bold patterns, and their own artful thinking. Whether for holiday décor or a heartfelt gift, these creations will shine!

Watercolor Pencil Workshop

- It's time for some color magic! Young artists will explore the beauty of watercolor pencils, blending and layering hues to create soft, dreamy effects. Watch their drawings come to life with a mix of control and watercolor flow!

Pizza Making @ CPK (12PM - 1PM)

Kid's Business Faire

- The final touch! Future entrepreneurs will refine their branding, polish their products, and prep for the big showcase. It's time to turn their vision into something truly marketable!

2PM - 5PM

Design Your Vision

- Calling all future designers! Young innovators will dive into the exciting world of digital art, using iPads and graphic design apps to craft custom logos, posters, and more. It's the perfect blend of tech and creative ingenuity!

Snowy Scene Paint Party

- Create snowy magic using vibrant colors to bring frosty trees, sparkling icicles, or cozy cabins to life. Campers will learn tips and techniques that capture the magic of winter.

STEM Challenge

- Dive into the world of STEM, experimenting, engineering, hypothesizing, and more. Campers will engage with various scientific and mathematical methods, exploring and strengthening their critical thinking and problem solving skills.

Kid's Business Faire

- The grand finale! Young business minds will refine their branding, design logos, and prep their products for a showcase. Ingenuity meets entrepreneurship in this exciting session!

Life Skills Gained

- **Critical Thinking & Problem-Solving** - The STEM Challenge gets them experimenting, hypothesizing, and engineering solutions—sharpening their ability to analyze, adapt, and persevere.
- **Tech & Digital Literacy** - By diving into digital art and design apps, campers gain confidence in using technology as a tool for innovation—building skills that will serve them in both creative and professional worlds.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Weekend Camp Sample Schedule

Each weekend we offer a variety of exciting activities designed to keep your camper engaged and having fun! Weekend schedules include a mix of our most popular activities, which you can view below.

Please note that activities vary from day to day based on camper interests and materials available.

Sample Activities Include

Drawing:

Learn essential sketching skills, practice proportions, study shading, and identify simple shapes within complex subjects. Break the rules with tricks of the trade as taught by the art masters!

Painting:

Create a masterpiece one brushstroke at a time! Use layers to add depth, colors to add contrast, and learn techniques to add details that make your art piece stand out.

3D Printing:

Explore the wonders of CAD using Nomad Sculpt!
Learn the essentials of 3D design, print your creations, and paint them for the finishing touch.

STEM:

Ignite your inner scientist with explosively fun experiments!
Make independent discoveries, study the scientific process, and engineer from your imagination.
Challenge yourself to try new things, ask questions, and think outside of the box.
Learn concepts in coding/ robotics, understand principles in physics and chemistry, and invent unique solutions to real-world problems.

Clay Sculpting:

Build your favorite characters, animals, landscapes, and more in 3D form!
Use malleable air-dry clay to mix unique colors, mold simple shapes, and create your sculpture one step at a time.

Digital Animation:

Bring magical stories to life with hand-drawn animations in Procreate!
Explore lines, shapes, and colors using loopable time and rhythm.
Dive into this new form of art with step-by-step guidance from an engaging guide.

Crafting:

Tap into your creative genius as you transform simple materials into works of art!
Turn paper into notebooks, cardboard into houses, or popsicle sticks into a musical instrument.
Let your creativity run wild as you invent from scratch!

Slime Making:

Learn the essentials of slime, from choosing the right ingredients to achieving the perfect consistency. Experiment with various textures, from fluffy to crunchy, and colors to create unique and satisfying slime sensations.

Wand Making:

Abracadabra! Campers will design and craft their own magical wands using paint, gems, and sparkling embellishments to bring their enchanted creations to life.

Mini Terrariums:

Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to craft their own mini ecosystems. They'll create a lush little paradise in a jar—a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

December Camp Week Four: December 22nd - December 26th

Monday, December 22nd

10:30AM - 1:30PM

Frozen Fun on Canvas

- Create a vibrant winter scene featuring a frozen lake and joyful skaters gliding across the ice. Camper's imagination soars as they capture the magic of a day on the ice!

Necklace Pendants

- Wear your art with pride! Campers will design miniature illustrations, then seal them under glass gems for a mesmerizing magnified effect! From galaxy swirls to cute doodles, these dazzling pendants will be totally unique keepsakes—or the perfect handmade gift for someone special!

Lunch @ CPK (12PM-1PM) Learn more about ordering lunch for your camper

Tie-Dye T-Shirts

- It's time to mix, twist, and dye! Campers will create their own colorful, one-of-a-kind t-shirts using the classic tie-dye technique. With endless pattern possibilities, every shirt will be a wearable masterpiece!

Kid's Business Faire

- Time to think like an entrepreneur! Campers will dream up their own creative brands, designing fun logos and packaging for their handmade products.

2PM - 5PM

Creative Clay Sculpting

- Let's get messy and mold something amazing! Campers will shape air-dry clay into adorable creatures, imaginative figures, or cool objects. With every pinch, roll, and sculpt, they'll bring their ideas to life in a 3D masterpiece!

STEM Challenge: Paper Plate Ring Toss

- Get ready to build, toss, aim, and WIN! Campers will create a simple yet sturdy ring toss game using everyday materials like paper plates and tubes. They'll customize their base and toss rings, experimenting with distance, angle, and force to land the perfect throw. It's a hands-on blend of creativity, engineering, and playful competition that brings physics to life in the most fun way!

Jewel Designing

- Shimmer, sparkle, and shine! Step into the world of jewelry design as campers create stunning bracelets, dazzling necklaces, and trendy rings. Using colorful beads, shimmering charms, and delicate wire, they'll design accessories as unique as their own creativity. It's time to rock their sparkle!

Kid's Business Faire

- From artist to entrepreneur! Campers will turn their handmade creations into must-have products by designing eye-catching logos, building professional packaging, and brainstorming fun ways to market their work.

Life Skills Gained

- **Artistic Expression & Creativity** – Campers will experiment with different painting techniques, tie-dye patterns, and jewelry design to bring their ideas to life.
- **Fine Motor Skills & Patience** – Learning to manipulate clay, weave intricate patterns, and assemble jewelry enhances dexterity and attention to detail.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Tuesday, December 23rd

10:30AM - 1:30PM

Woven Coasters

- Let's weave some magic! Campers will twist, loop, and knot colorful yarn into eye-popping coasters that are both stylish and functional. With vibrant patterns and playful textures, these woven wonders will be one-of-a-kind masterpieces—perfect for a cool drink or as a dazzling gift!

Mini Terrariums

- Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to design their own mini ecosystems. They'll create a lush little paradise in a jar, a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

Lunch @ CPK (12PM-1PM) [Learn more about ordering lunch for your camper](#)

Chilly Clay Wonders

- Sculpt delightful winter-themed characters like snowmen, reindeer, and more! Campers' imaginations will run wild as they learn essential sculpting techniques and bring their frosty ideas to life.

Kid's Business Faire

- Time to turn creativity into cash! Campers will become mini-entrepreneurs, designing their own logos, packaging, and branding for their handmade creations. They'll learn how to market their masterpieces and maybe even dream up the next big thing!

2PM - 5PM

STEM Challenge: Coffee Filter Snowflakes

- Kids will transform plain coffee filters into dazzling winter snowflakes! With a sprinkle of color and a spritz of water, shades blend and spread

like magic, teaching kids about absorption and color mixing. A few clever folds and snips later, each snowflake becomes a one-of-a-kind masterpiece—ready to sparkle in their very own winter wonderland!

Scrapbooking

- Turn memories into magic! Campers will cut, collage, and create scrapbook pages bursting with stickers, doodles, and awesome designs. Whether it's capturing an unforgettable moment or telling an epic story, their scrapbooks will be one-of-a-kind time capsules of fun!

Candle Making

- Melt, mix, and mold your own candle creations! Campers will choose fun colors and delightful scents as they design unique candles, perfect for gifts or adding a cozy personal touch at home.

Kid's Business Faire

- It's showtime! Campers will develop their own brand identities, designing logos and packaging to spotlight their handmade creations. They'll gain confidence in marketing and presenting their work like real entrepreneurs, turning creativity into commerce!

Life Skills Gained

- **Design & Personalization** –Campers learn how to design and customize everyday objects, transforming simple items into one-of-a-kind masterpieces.
- **Responsibility & Nature Awareness** – Creating and caring for a mini terrarium introduces campers to plant care and eco-consciousness.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Wednesday, December 24th

10:30AM - 1:30PM

Cozy Winter Cabin Scene

- Paint mini wooden cabins and arrange them on a canvas alongside their winter clay creations. Combine vibrant colors and creative designs, crafting a charming diorama that captures the spirit of the season and brings imaginative winter scenes to life!

Collage Making

- Cut, layer, and glue! Campers will explore the art of collage by mixing colorful paper, magazine clippings, and textured materials to bring their creative ideas to life.

Lunch @ CPK (12PM-1PM) [Learn more about ordering lunch for your camper](#)

Cardboard Yarn Letters

- Wrap, weave, and design! Campers will turn their initials or favorite letters into unique, textured art pieces using vibrant yarn and creative patterns.

Kid's Business Faire

- Future entrepreneurs in the making! Campers will develop their brand identities, design logos, and work on packaging ideas to bring their artistic products to life.

2PM - 5PM

DIY Name Garlands

- Let's turn names into masterpieces! Campers will cut, paint, and decorate their very own bold and vibrant name garlands using colorful paper, sparkling embellishments, and creative designs! Whether it's glittery, neon, or full of funky patterns, their banners will be as unique as they are!

Bracelet Making

- Beads, charms, and endless style! Campers will mix, match, and design unique bracelets bursting with personality turning every creation into a statement piece they'll be proud to wear (or gift!).

Digital Art

- Step into the world of digital creativity! Using tablets and design software, campers will learn how to sketch, color, and create stunning digital artwork using fun and innovative tools.

Kid's Business Faire

- Time to think like an entrepreneur! Campers will bring their creative business ideas to life by designing logos, brainstorming branding concepts, and planning product packaging.

Life Skills Gained

- **Fine Motor Skills** – Cutting, weaving, and painting help improve precision and dexterity.
- **Tech & Digital Literacy** – Learning to create digital art helps campers build modern artistic skills in a technology-driven world.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Friday, December 26th

10:30AM - 1:30PM

Fizzy Paint Explosion

- Get ready to mix, splash, and fizz with a science-twist! Campers will blend baking soda with vibrant dyes to create colorful paint, then unleash the magic by dripping vinegar to make their artwork bubble and pop. Every brushstroke becomes an experiment in color and reaction—watch hues swirl and fizz as creativity meets chemistry in one unforgettable display of art-meets-science!

Rainbow Shape Mobile

- Shapes that dance in the air! Campers will cut, color, and decorate bright geometric shapes, then balance and assemble them into a hanging mobile. As they tinker, they'll discover how shapes, colors, and weight come together to create a floating rainbow masterpiece that twirls and spins with every breeze!

Pizza Making @ CPK (12PM - 1PM)

STEM Challenge

- Dive into the world of STEM, experimenting, engineering, hypothesizing, and more. Campers will engage with various scientific and mathematical methods, exploring and strengthening their critical thinking and problem solving skills.

Kid's Business Faire

- Entrepreneurs, assemble! Campers will brand their creations, design eye-catching logos, and package their products like pros! It's a fun, hands-on intro to business, turning creativity into something marketable.

2PM - 5PM

STEM Challenge: Paper Plate Ring Toss

- Get ready to build, toss, aim, and WIN! Campers will create a simple yet sturdy ring toss game using everyday materials like paper plates and tubes. They'll customize their base and toss rings, experimenting with distance, angle, and force to land the perfect throw. It's a hands-on blend of creativity, engineering, and playful competition that brings physics to life in the most fun way!

Winter Scratch Art

- Hidden wonders, snowy surprises! With each scratch, campers will reveal frosty blues, icy silvers, and shimmering rainbow hues hiding beneath the surface. This magical art activity feels just like uncovering sparkling winter skies and twinkling snowflakes—full of contrast, texture, and wintry mystery!

Palm Puppets

- Put on a show, your way! Kids will design and decorate their own paper puppets, then attach them to dowels to bring them to life. Whether it's a silly monster, a funky animal, or a brand-new character from their imagination, these palm-sized puppets are perfect for storytelling and playful performances. Once complete, campers can put on their own mini puppet show—full of giggles, voices, and endless creativity!

Kid's Business Faire

- Future business moguls, let's go! Campers will finalize their brand, polish their packaging, and get ready to sell their awesome creations.

This is where art meets entrepreneurship, turning creativity into a fun, hands-on business challenge!

Life Skills Gained

- **Scientific Curiosity & Experimentation** - Through Fizzy Paint Explosion and STEM challenges, kids practice hypothesizing, testing, and observing reactions—building confidence in asking “what if” and exploring outcomes.
- **Engineering & Design Thinking** - Paper plate ring toss and mobile-making introduce balance, weight, force, and structure—developing spatial reasoning and design skills.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Weekend Camp Sample Schedule

Each weekend we offer a variety of exciting activities designed to keep your camper engaged and having fun! Weekend schedules include a mix of our most popular activities, which you can view below.

Please note that activities vary from day to day based on camper interests and materials available.

Sample Activities Include

Drawing:

Learn essential sketching skills, practice proportions, study shading, and identify simple shapes within complex subjects. Break the rules with tricks of the trade as taught by the art masters!

Painting:

Create a masterpiece one brushstroke at a time! Use layers to add depth, colors to add contrast, and learn techniques to add details that make your art piece stand out.

3D Printing:

Explore the wonders of CAD using Nomad Sculpt!
Learn the essentials of 3D design, print your creations, and paint them for the finishing touch.

STEM:

Ignite your inner scientist with explosively fun experiments!
Make independent discoveries, study the scientific process, and engineer from your imagination.

Challenge yourself to try new things, ask questions, and think outside of the box.
Learn concepts in coding/ robotics, understand principles in physics and chemistry, and invent unique solutions to real-world problems.

Clay Sculpting:

Build your favorite characters, animals, landscapes, and more in 3D form!
Use malleable air-dry clay to mix unique colors, mold simple shapes, and create your sculpture one step at a time.

Digital Animation:

Bring magical stories to life with hand-drawn animations in Procreate!
Explore lines, shapes, and colors using loopable time and rhythm.
Dive into this new form of art with step-by-step guidance from an engaging guide.

Crafting:

Tap into your creative genius as you transform simple materials into works of art!
Turn paper into notebooks, cardboard into houses, or popsicle sticks into a musical instrument.
Let your creativity run wild as you invent from scratch!

Slime Making:

Learn the essentials of slime, from choosing the right ingredients to achieving the perfect consistency. Experiment with various textures, from fluffy to crunchy, and colors to create unique and satisfying slime sensations.

Wand Making:

Abracadabra! Campers will design and craft their own magical wands using paint, gems, and sparkling embellishments to bring their enchanted creations to life.

Mini Terrariums:

Shrink down to nature's tiniest universe! Campers will layer moss, succulents, and tiny pebbles to craft their own mini ecosystems. They'll create a lush little paradise in a jar—a magical world they can care for, decorate, and proudly display! Who knew plant life could be this awesome?

December Camp Week Five: December 29th - December 30th

Monday, December 29th

10:30AM - 1:30PM

Creative Cover-Ups

- Get ready to paint, splatter, and doodle your way to the ultimate customized artist apron! Using fabric paints, markers, and wild embellishments, aspiring artists will transform plain aprons into bold, colorful, and totally YOU designs! Rock your creation while making more works of art!

Cloud Creations

- Let's get our hands messy with the softest, fluffiest, squishiest cloud dough ever! Young innovators will mix, mold, and sculpt this sensory-friendly dough into wild shapes, animals, or even tiny sculptures! It's art, it's science, it's a hands-on, messy masterwork!

Lunch @ CPK (12PM-1PM) [Learn more about ordering lunch for your camper](#)

Tiny Towns

- Think BIG but work TINY! Young visionaries will paint, design, and create their own mini neighborhoods using wooden houses, clay trees, little characters, and anything their imagination dreams up! Each participant builds a one-of-a-kind town, making it as wild, wacky, or realistic as they want!

STEM Challenge: Secret Message Reveal

- **Kids get to be codebreakers with their own secret message mission! They'll write invisible notes using a "hidden ink" method and then reveal it using colorful paints or household tools. As the secret message appears, they'll unlock the magic behind surface chemistry and observation—all while playing the ultimate spy game of create-and-reveal!**

2PM - 5PM

Sunbeam Catchers

- It's time to light up your imaginative power! Future artists will design dazzling suncatchers using colorful tissue paper and pressed flowers. Hang them in a window and watch the sunlight bring them to life with a magical glow!

Story Stones

- Paint, Mix & Tell! Get ready to paint, imagine, and tell epic tales! Young innovators will decorate small stones with fun images—animals, symbols, characters, and more! Then, they'll shuffle them up and create one-of-a-kind stories with every mix!

Secret Stash Notebooks

- A Notebook with a Twist! Every artist needs a place to store their secrets! Budding creators will design mini notebooks with a hidden pocket for treasures, notes, or secret messages! A mystery-filled, ultra-personalized journal they'll love!

Kid's Business Faire

- Brand It & Sell It! Young entrepreneurs, it's time to shine! Rising innovators will polish their branding, design eye-catching packaging, and get ready to "sell" their artistic masterpieces like real business pros!

Life Skills Gained

- **Critical Thinking & Problem-Solving** - Secret Message Reveal and Story Stones challenge kids to think outside the box, decode, and invent playful narratives.
- **Fine Motor Skills & Focus** - Designing tiny towns, molding cloud dough, and crafting notebooks sharpen precision, patience, and hand-eye coordination.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*

Tuesday, December 30th

10:30AM - 1:30PM

Cardboard City Builders

- Build Your Own Mini Metropolis! Time to become an architect! Future designers will construct an entire city using recycled cardboard—skyscrapers, shops, parks, and more! Add paint, decorations, and bring your dream town to life!

STEM Challenge: Paper Spinning Helicopters

- Watch as science meets play! Campers will create simple paper helicopters by folding and attaching blades and weights—then send

them soaring. As they drop their creations, they'll see how air resistance and lift slow the descent, giving their helicopters a mesmerizing, spinning flight. It's a hands-on lesson in forces, motion, and joyful discovery!

Lunch @ CPK (12PM-1PM) Learn more about ordering lunch for your camper

Seashell Necklace

- A Piece of the Ocean! Time to bring the beach to life! Young artists will transform real seashells into beautiful necklaces by adding color, glitter, and creative flair. A perfect souvenir or handmade gift!

Kid's Business Faire

- Young entrepreneurs, it's time to shine! Visionary creators will finalize their brand, design packaging, and prepare to "sell" their artistic products in a fun, hands-on experience!

2PM - 5PM

STEM Challenge: Outer Space Parachute

- Let's launch something celestial! Campers will build a mini space module using a cup and foil, then attach a parachute crafted from a plastic bag and yarn. When dropped from a height, they'll watch their module gently float to the ground, discovering how air resistance fights gravity to slow its descent. It's a hands-on mission into the thrilling mechanics of motion—one mini parachute at a time!

Sock Puppets

- Wacky, Wild & Full of Personality! Transform ordinary socks into hilarious characters! With buttons, yarn, and fabric scraps, young performers will bring their puppets to life—and even put on a mini puppet show!

Paper Flower Bouquets

- A Blooming Work of Art! Artists will cut, fold, and assemble gorgeous paper flowers into a vibrant, handcrafted bouquet. Add stems, leaves, and a creative touch for a forever-lasting floral display!

Hello Kitty Cafe Field Trip

- Take a field trip to visit this landmark beloved brand. Campers will experience the magic of the Hello Kitty Cafe while exploring their

branding, product display, and marketing. They will also get to try a tiny treat!

Kid's Business Faire

- Time to turn ingenuity into a business! Young changemakers will finalize their branding, design packaging, and prepare to showcase their handmade products in a fun, interactive fair!

Life Skills Gained

- **Design & Innovation** - From cardboard skyscrapers to paper flower bouquets, campers flex their ability to dream big, prototype, and build creative designs.
- **Scientific Thinking** - STEM challenges with helicopters and parachutes teach kids to test, observe, and problem-solve through real-world physics and engineering concepts.

**Camp activities are flexible and may change based on camper interests, requests, and preferences.*
