

“Good Poetry”

By: GPoeT-2

Edited by Kai-Ling Lo, Rami Ariss, and Philipp Kurz

Food

The chocolates are not all that rare
though you roast them and cook them with care
use a nice piece of butter
you'll become quite aflutter
making butter just right? god knows where

His career was not one to dine
like a man who was drinking with wine
till one night at the bar
would be played best by far
his wine was much more than just fine

If you want to make your own bread
add some jam and some candies instead
yes, its texture and taste
without going to waste
if at breakfast you serve with this spread

I'm a gourmet. eat as you wish.
I like veggies and salads, fresh fish.
so here's salad and eat
take me home. take a seat!
where's your time? I'll be serving this dish.

As a cook it was hard to resist
with some onions and garlic. he kissed
sugar, salt, broth, and spices,
sugar, cream, and suffices.
they're all in his seasoning list.

The man's a very good cook. I swear;
yes, his tenaciousness nothing can bear.
he's a load of fine food
for the guy who's all stewed,
he'll admit it. I'll tell him, with flair.

To a fellow with a fondness for fish,
he likes to bring food on a dish.
when he's laid on your table,
you'll find that you're able
to eat on himself, if you wish.

Health

With my c-section ailing me yet
about kneading and clamping, you get
guys all know what I do
to weave yarns through and through
and observe how the strands are too wet

I've developed an allergic reaction
my doc gives me great satisfaction
it's now quite severe
from the skin to my ear
means I'm taking no skin protection

Your acoustical acuity shows
any sound that we find in the nose
or occurs in your ear
can't describe what you hear,
bending down on the tips of your toes.

My wife has an autoimmune disease
and my doctors with vast expertise
it is diverticulitis
that's diverticulitis
which aggravates all that she sees

How much pain is a good medical test?
you will really get weary and stressed;
if blood temperature's high.
feeling high? then that's why
take comfort when you feel depressed.

If you've got acne, there's a good way
you may get a new treatment, to pray
just prescribe for this swelling
'cause a pain in her dwelling
off your skin, it will cure it all day

After six months of damnation
a condition that caused a sensation
you have to get well
you're a bat out of hell
(and inflamed) in calcification

Humor

I've been feeling like a big dope,
and today I was thrown by the rope.
this may take me some day,
as my friends come to play?
I'm descending a slippery slope.

You won't find her in the bazaar
of a sale that is not as bizarre.
with the size and the price,
so please heed this advice:
it may cost her four wheels, sell a car.

The dames of old used to flock
used from fooling around on the rock
when around them, they found
'twas an audible sound
and exposed them it's funny to mock

I was hit by a car (terrific news)
and I crashed with a way too much booze.
and my fault in the crash
was another car's crash?
I have brakes now, no brake for my shoes!

Legends & Tales

Ancient kings were their best-laid schemes
six years later; their deeds and their dreams
of a monarch and king
these songs that they sing
now today, what we've known for his screams

Some old maps had a nice border, plain
many mountains, were shaped like a brain
near the top of the town
and this hill of renown
then they opened to new cities' gain

For the goth, a costume full of lore
and his body of armor? there's more
is in layers of skin
that he'd never begin
they would flee from the battle in war

There once was a witch who used to pray
to live through her own holy way,
she often professed.
the voice she possessed
(to pronounce it) had gone astray.

Let us go dance one more time (with the ring)
just in scorn and in spite of the thing
all that smile on your face
kiss us over the place
its exuberance is led by the king

The amazonian rose, so I'm told
and round like a rose made of gold
of white with bright yellow
it started to bellow
a spectacular sight to behold

A pirate who isn't quite the swell
wants to claim that he's tied to a spell.
what's right? here's the reason:
it's hurricane season.
he's king, we'll be going to hell.

Literature & Art

Do you like to play jazz for a fee
playing limericks like music, you see
maybe snuggle up, dance
in that party, askance
while alone there, you'll surely agree

An artist might claim he's as good as me;
with none of his talents, you see,
which are all his fine shows
of the talented pros
often sell public art at his marquee.

His psalms aren't easy to hear.
full of music is sweet in the ear.
to the soprano's soft voice
makes the singers rejoice,
should we hear it beguile and cheer?

The bitterest words are the ones
in the earliest terms of their puns.
you may think they're quite clever,
but certainly never
in scrabble, and out on them runs.

That old, dirty word is disquisition
that verb is, alas, my ambition
so what I must mean
if before it's not clean
I'm in need of a slang definition

With words that are apt or obscene
of a word there's a difference between
and how to define
to explain the straight line
to define it with rhyme is routine

It seems you have this odd fascination
in such an obscure occupation.
by reading your books,
like a reader who looks
and end up in your books with elation.

His book's quite a nice one, I suppose
four pages, it looks like a rose
the five lines on each page
has been broken in rage
so his history book's full of prose

On the web, what one typeface defines
used by four letters, in lines
when you're browsing your site
grab a bookmark; click right
it will fill you with room for designs

Marriage

An acceding that's made by your spouse
laws of marriage arranged by a louse
(you may find the same place)
with this ring on your face
so watch out, and come back when you grouse

My wife and son don't like to share;
I ask it and give it right there.
we'll argue all day
whatever they say
they'll be heard when the law will be fair.

My poor wife's got an infection
and so part of my life there's rejection
she wants her to me
but I'm happy and free
she's collection, collection, collection

Medication

We've seen all the new drugs we can't wait
from these warnings of death. this is great
we will not sign a warning
our concern is no warning
but what do we risk and create

Bromocriptine's one of the drugs
down the streets that cause trouble with thugs.
though the cure isn't cheap,
for your health you will reap,
smells like sewage that's toxic to bugs.

This compound helps your kidneys work
of centers where lethal toxins lurk
from the best solution
to avoid diminution
but inhibit them; things go berserk

This man was quite an industrious fellow
the doctor decided to mellow
with the help of a test
was his chemistry's best
when he tried it, it all turned bright yellow

The good doc made amends, but I fear
these drugs are diseases, my dear
to the stock full of pills
adrenergic thrills
that my doctors can't quit them this year

If the patient's averse to the med
he may not even sit nimbly instead
he'll be likely to care
in a case lying there
especially when lying in bed

The ameliorative effects of drugs
caused by killing off folks or some thugs
who'd do greater of harm.
the feds gave their alarm
reputation was due for some hugs.

Money

My girlfriend and I went to the pool
only cash for it. I was a tool
I took all the money
though that thought may be funny
that some credit would not seem uncool

I've got money that I want to invest
and I've found my investment was best:
I ran off with my cash?
this decision was rash.
took it last, 'cause my wife is distressed.

An unfortunate fellow named marge
because he was caught in law's charge
he'd caught out on the law
claimed he hadn't a flaw
his taxes? a number at large

Nature

The anadromous fish swimming below
away from a place you don't go.
they remind me, my friend,
having only one end,
so to know it is quite apropos.

I'm convinced my old cat is possessed
as a canine? we'll take to the test
my kitten's in fur
he wants, yes, a purr
the big guy wears a cutie brown vest

When the weather turns chilly, it's not
some days are so wet and so hot
early freezing, at night
like an illness that might
we'll stop sleeping because we're all squat

If a tree needs fertilization
to assure the result of creation
this is all that you need
to get free from the seed
then you'll grow for some tree's salvation

At the end of our tour of the plant
not a basket of flowers! I can't
but alas, sorry to say
that we're planting today
in love all that my flowers will grant

When the water and soil combine,
true arborists keep the straight line:
new pieces of land
a new layer of sand,
can create the deciduous vine.

When the wind's blown in all directions
you may notice a beam's imperfections
behind lines clearly clear
to ensure a straight steer
down and vertical cross intersections

Poetry

While my heart aches from a fight (I'm sore)
I tried to write limericks and more
in the stress, alternation
and tension, frustration
my breathing? just some kind of corps

No more limericks, 'cause my verses are done
I will write every verse, one by one
and results from my rhymes
not in very good times
but this verse-writing verse is much fun

This limerick's the last one I'll write
all the ends of five limericks tonight
I'm perplexed through each line
writing limericks that whine
need one limerick? my words are too bright

As a poet, my attention's on
one who corrects what dimension's on
just try fixing my rhyme!
I won't take so much time...
if they not, 'cause they're only five lines on?

This limerick's not for the faint of heart,
and a novel, with author's great art;
I don't tell by an earful;
but my writing is cheerful
(people write lots of rhymes, but ain't smart).

This is no easy task and I'm glad
as my limericks are not utterly bad.
I've been trying to find
as I try, I won't mind
since that drives me disgusted and mad.

This limerick's a delight:
though it rhymes with lines nice and tight.
when I write something funny,
I choose something runny.
(in limericks, I don't like to write.)

Relationships

She looked at me with utter dismay
that she wanted to get her away
I had taken to bed
all alone, and she fled
very soon came one fine summer's day

That's a fact, not a fiction
when women encounter some friction
the end of romance
is a slip of their pants
does it lead to good manners and diction

My brother is just not in the mood
he insults me. my temperament's rude
when, I call him a tonic
he's cruel and demonic
his temper I'd like to exude

I know why you're so uptight
don't contemplate things up with delight
is the point that I find
as I go with my mind
I'm unable to focus all night

You've an amorous girlfriend who quips
and lady who kisses and snips
please confess, or some say
at parties that day
when you're talking like burgers and shrimps

With an eye for romance? a true lover?
there once was a man named surveyor.
on one night that she fell,
and he knew for her well.
when I told him, though, didn't cover!

I must get this guy's attention.
I adore him; it's worthy to mention.
now that man's in my head?
what if I'm in my bed?
I got it! just broke the convention.

If a guy says his girl can't be had,
his reaction's paradoxically bad.
if he thinks she's so bitchy,
she's not just his beauty,
so perhaps it's unbearably sad.

Religion

In the bible, god's prophets are great
they will pour up our food on the plate
when we're tempted to feed
and will eat what we need
all their promise from hell's come to date

You should think that the bible is real
but atheism ain't a big deal
can't tell god without doubt
at the views you find out
the best one which spins like a wheel

The bible makes sure they follow the laws
it gives people to stick to the cause
free-squealed (that's a curse)
they obey; they get worse
they condemn them of sin without pause

There's a bicameral priest I've befriended
where he's spouseless; his hopes have distended
to avoid mortal sin
from the things he can spin
he's recommended

School & Adolescence

As a kid, I had many dreams
though I'd live in a lake up on streams
In a cottony bed
pretty clearly it's said
they don't come apart at the seams

Do the girls in our sorority swoon
if they fall, we'll go down 'round the moon
every night, will they wait
and then sneak off their mate
there are women at work as a boon

In your thesis, you claim that my teacher
will cite factual facts on that feature;
as based in statistics
the subject of mystics
is a mammal, not just a creature.

I shall have to admit a degree
that zoology pros must agree
calculations. you'll find
loads of knowledge combined
for the value, they say, of a b.

All those kids who are seeking ways to please
wave and texting, and playing with ease
'twixt and between them
this internet forum
is social, but not a disease

Society

Some lawyers are never the best
but be careful, and I can attest
when you prove your defense
the value's immense
and prompt response to a test

When you open your mouth, a small dent
a small dent that is just what it meant
my teeth. I don't care
so just please be aware
an acceptable form of consent

You may be surprised at the height
of some child. can it be no delight
some criminalize you
even innocent, true
should have plenty of skins that are white

When the government said I had to go
for their absolute status quo.
they've got nothing at all?
still, the kingdom would fall.
so I shot them, a very bad blow.

Our boss, in his heady condition
has left us quite filled by suspicion
but for those among us
are crude and humungous
his behavior, alas, is contrition

When a new job needs your attention
to make up a new fashion convention
with a stunning design
and that's mostly benign
I advise you, it's worth not to mention

This is what I think people confuse
humanism! that's my excuse
no, my brain doesn't see
could be one just for me
so I'm not just a mind?it's what I choose

When an object's suspended, out of sight
and the lights may discolor in white,
no reflection is seen,
and your face is still lean?
looking empty? a void of delight.

To avoid getting shot, make sure you're smart
of success when you take it apart
making shots that you shoot
that you shiver of loot
you have bullets, and death, and the art

Our society is filled with extremes
we are striving for most of our dreams
we are filled with oration
with the cause of inflation
consumerism: we add to its themes

Stories

An asthmatic, young fellow named Wade
tied life, soon his memories fade
he lost records all day
but returned to the tray
of his soul, every gesture he made

How'd they capture this girl who was mute?
yet the legends are hard to refute.
an old claim to be found
to go boozing around?
say it now: are we cops in pursuit?

The man was just starting to run
with a horrible example of none
I must face this attack
I can't give him my back
I don't care, sir, please hand me the hon

That young singer looked great, but I thought,
but he broke, fame and fortune he sought.
such a story? we're sad!
his whole life's been so bad?
no wonder about what he got caught.

His work was the envy of men:
his work was composed by his pen.
once they read very well,
but his prose did not sell;
every story is sold now and then.

As a young woman from l.a.,
dressed down there and, as you could say,
you loved since you met her?
it could have been better
the truth wasn't apt to convey.
