## Prediction Matrix

Directions: Make your prediction about what will happen in the story. List the clues that helped you. After you finish reading, go back and write what really happened.

| What I predict will happen | Clues that I used to make my prediction | What really happened |
|----------------------------|-----------------------------------------|----------------------|
|                            |                                         |                      |
|                            |                                         |                      |
|                            |                                         |                      |
|                            |                                         |                      |
|                            |                                         |                      |
