Water Balloon Math Facts

Test each other's knowledge of addition, subtraction, multiplication, and division facts by tossing water balloons. Partner 1 will give a problem, then toss the balloon to partner 2. Partner 2 will then reply. Partner 2 will then give a problem then toss the balloon back to partner 1. Partner 1 will then reply. For every correct answer, each partner will take a step back. Flashcards can be used to quiz your partner.

2nd Grade Math Summer Enrichment Activities

Addition War

2 players: Each player flips 2 playing cards and adds them (flip 4 cards to make 2 digit numbers), the player with the highest sum wins!

Plan your summer vacation:

When given a certain budget, students will pick and choose a travel destination and the activities they would like to do. But, they must not go over budget:

Holiday Recipe- Math Project by Raki's Rad Resources | TpT

Math is best learned in real life situations. This project puts students into the real life situation of making a holiday recipe. Students create a food budget and a timeline. While working on problem solving and creative thinking, students also work on rounding, addition and elapsed time.
