\* Only subtle differences in the application system between the different regions

\*\* For those who has experience in more than one country's university application, please mention a little bit about how you have coordinated multiple applications

So much to memorise for two years contents of IB Biology and Chemistry... How do we do this in the first and second year?

<High School Experience>

Honest perspective outweighing pros (+ and cons if any) to act as a guide for high school decision beyond the university trackrecord and school buildings.
