Wednesday, December 22

Waning Gibbous in Leo begins at 10:38 pm PST

[Combined with Full Moon Phase]

North Node in Taurus (December 22, 2021 - July 12, 2023)
South Node in Scorpio (December 22, 2021 - July 12, 2023)

North Node in Taurus

The North Node transit shows us what we are moving towards, and the global trends that we should expect over the next 18-month cycle.

The past 18 months have seen a massive change in global trends as the North Node moved through Gemini and the South Node transited Sagittarius.

This showed a moving towards new careers, education, educational formats (homeschooling/online learning/distance learning), as well as working and staying within our more immediate environments with an emphasis on very short distance travel, this saw a massive decrease in commute times through lockdowns and business restructuring.

This presented the ability for many to telecommute, explore grocery delivery and overnight delivery, work from home, telemedicine, and traveling within our more immediate neighborhoods.

In terms of business, this showed up as an explosion of technologies like video conferencing through Zoom, and the transition of businesses that were primarily in person into the online space. We also saw a massive explosion in online learning, new careers, online training, and many stepping into the updating of their businesses into a more online space. The development of new skills, especially highly specific training saw massive growth.

Now with the North Node moving into Taurus, we will see a continuation of much of our lives, whether through work, friendships, and domestic lives growing from right from the comfort of our own homes. Whether it's the continuation of online education, reskilling ourselves, exploring homegrown food, home-based health, and creating rhythms and routines around our more immediate environment.

The return to commuting or long-distance travel or education will continue to remain slow, if not completely and forever changed.

We will look to create more of our luxuries from home, whether it be foods we enjoy, health care, gardens, learning and education, and growing our businesses.

The emphasis will be on creating quality life experiences, which may have many exploring new ways of living, relocating, or new ways of creating sustainability in their lives that they felt they didn't have time (or motivation) to before. We will

also see an increase in new currencies especially as the North Node conjuncts Uranus on July 26, 2022.

These trends will continue into 2023, lasting approximately 18 months.

From a business perspective, this is a perfect time to either launch your business into the online space (and home space), and to also explore new training, and slowly build out more security for yourself. If you teach business in any regard, the next 18 months will see massive growth in your industry. This can also be a good time to explore alternative income streams, currencies and creating a side business.

The North Node shows the potential for increase/advancement and opportunities for the themes of the sign it is transiting through.

What to watch for during this transit:

Personal Assets/Personal Income/Cash in hand - Cash and tangible resources will become more important

Banks/Banking (trends or changes in interest rates, mortgage rates, loans)

Currency (changes to - shifts in currency, new currency, re-valuation of old currencies, gold, silver, gems, land, and other tangible assets)

A movement into trading, stocks, currencies, securities

Budgeting (more people will be watching their finances and likely stepping into budgeting if they haven't before)

Commerce and New Business -especially online, or from home

Focus on Skills that Earn Money/Earning Capacity

Government Finances/Currency/Shifts in Employment

Trends/Treasury/Country Reserves and Natural Resources (value)

Property/Mortgages/Purchasing of Land/Homes

Real Estate

New Hobbies that can be done from home

Increase in Taxes & Costs of Food/Resources

Issues of Health Care Systems /Access

Health Issues specifically targeting the Head/Base of Skull/Neck/Glands/Diabetes/Fertility/Illnesses in Children and Grandchildren

Home Based Entertainment (both digital and hands-on)

Food Security/Agriculture/Self-Sustainability

Health Food/Vitamins/Herbs/Supplements/New Diets/Home Health Care

Home Education and an increase in new educational methods (Reggio Emilia, Waldorf, STEAM/STEM, Montessori) for younger children and for older children, teens, young adults, we will see an increase in more young people creating their own education and future employment from home, or through alternative means.

South Node in Scorpio

The South Node shows us what we're coming away from as a collective on a global level, and rules 18-month trends.

The past 18 months have seen a massive change in global trends as the South Node transited Sagittarius.

This showed a moving away from long-distance travel, higher education, retreats, and trips geared to personal development, and for many even a change in their belief systems, traditions (family/religious), and long-term goals.

We saw a massive increase in the consumption of media (Gemini), learning new information and an attempt to determine truth from fiction, while also attempting to form our own opinions for ourselves.

The South Node's transit through Sagittarius saw a complete change in the airline and travel industry, a coming away from global travel, and more to towards local travel, with many of us stuck in our homes or limited to our local areas for staycations.

This also saw a massive increase in learning from home, and a step away from long-distance or higher education, and a shift into choosing your own education for yourself, through the use of online or distance materials.

Now that the South Node is moving into Scorpio, we will see a disillusionment with any forms of manipulation and gas-lighting whether through media, friendships, authority, or governmental figures.

We may also find ourselves questioning previous healing methods, and possibly even avoidance of navigating our own trauma when things become too much.

It will feel more important than ever to step away from what we can't control and into navigating our own spaces and choosing what we allow into them (any negativity may send us into a downward spiral).

We must be cautious of seeking quick fixes at this time, and avoidance doing the deeper work on our health, mindset, psychology, beliefs, and fears.

This is not necessarily the best time for the healing and metaphysical industries, as they will see more people turning away from doing deeper work, even though it is obviously needed, on the other hand, we may see a rise in more manipulative and unethical techniques either through media, competitors in our industry, government authorities, and previously trusted sources.

It will be more imperative than ever to lean into your own intuition to determine what's true for you.

The South Node either obscures, ends, or creates obstacles to the themes of the sign it is transiting through.

Things to monitor during this transit:

Changes to Relationships/Divorce/Morality Rates

Debt/Credit

Death/Endings

Taboo Subjects

Joint Finances

Lawsuits

The Withholding/Gaslighting of Medical Advancements/Truth/Scientific Discovery

The hiding of facts/figures/numbers/data/results

Waning Gibbous in Virgo - All Day

Mars Trine Chiron

If you're feeling brave enough, this aspect is a positive, supportive element for you confronting fears, wounds, and anything that feels sore inside you. We might feel vigilant about getting to the bottom of our issues and under this influence, we can make a lot of headway in understanding ourselves at the deepest level.

Venus Rx Conjunction Pluto

♀ ♂ ♄ ♅

With this transit occurring while Venus is RX this is not a good time to make major financial or relationship decisions. We may be noticing things ending, or feeling as though they are coming to a close within us or in our relationships. What is showing up for you? What is coming to an end? Are you at a crossroads? Wait until Venus goes direct to take action on your ahas, and allow more clarity to come to you before deciding fully.

With this transit, we are being drawn to the deeper darker questions, a search for meaning, on the areas of our lives that are most important to us. We want to know that when we ask these deeper questions that we won't be met with more questions or emptiness, but the depth and insight we have been needing and craving.

Where have you been just coasting the surface in your life? Where have you been wishing you could just go deeper, to open up, to lose yourself, or connect in a very profound way? With this period there is a tearing down of walls (the ones we've built and the ones others have built), it is an acknowledgment that whatever is hidden behind those walls needs to be seen, and revealed and whatever isn't, must end. It is the end of our illusions, and a commitment to see something through to the end (whenever that may be).

In relationships, this is the ultimate seeking for deep understanding and connection. To be seen and to reveal to another our whole selves. To have time away either with another person or with ourselves, to some deep soul searching. To find out what it means, what we're doing (in our personal lives and businesses, and if it's worth going deeper into).

Sunday, December 26

Void Moon from 12:39 - 8:23 am PST [Virgo to Libra]

- Emerging out of intense productivity and solitude towards socialization
- **Hold off:** on any big announcements/launches as this energy makes us distracted and like we're lingering in limbo
- **Earth to Air** = Introducing flow and balancing heavy with light energies

Waning Gibbous in Libra begins at 8:24 am PST

Ongoing Transits

Venus Retrograde (December 19, 2021 - January 28, 2022)

26 CAP 29 - 11 CAP 05

Last year's Venus Rx in Gemini encouraged us to communicate our ideas with integrity and honesty to form closer bonds. In the same way, this Venus Rx in Capricorn is attempting to re-nourish our sense of personal security and integrity. To nurture within ourselves our own capacity to get our needs met and the added value we bring to our relationships and business collaborations as a result of that self-sufficiency.

Capricorn is most interested in building a life that is secure, stable, and consistently abundant. Not just for the short-term gratification of making lots of money but for the legacy it builds over time and all those who benefit under its shade.

The thing we have to ask ourselves is how stable we are in our ability to meet our needs materially. This cash-generating transit is about long-term gains and slow trickles of income that add up over time. You can use this transit to revise/update or build an evergreen funnel that works in the background of your life, while you focus on building your public image and reputation in your industry (another thing Capricorn excels at).

Finances:

Venus Retrograde (and pre-retrograde) is here to draw our attention to how and where we're spending our money and what we value. Monitor your leaks, notice where you spend, and whether you are getting your money's worth. Once Venus goes retrograde, hold off on major purchases or you may find you buy something that no longer fits who you are, and who you are becoming, or the future you had in mind for yourself.

Notice the themes that popped up when Venus was in pre-retrograde connected to your relationships, values, and finances. Where were you being drawn to fix things, or commit to things? Whatever issues or challenges presented themselves you'll likely find yourself facing it head-on now that Venus is Retrograde.

These can sometimes bring unpleasant conversations, challenges, and consequences from past actions, but ultimately Venus is here to help mend hearts and pocketbooks, so it's best to lean in and work with it, you'll find much healing comes as a result.

Once Venus goes direct, we can then put all of our Venus relationship and financial lessons into practice and take some more significant action.

Chiron Direct (December 19, 2021 - July 19, 2022)

Chiron has been in Aries since 2019 and will continue to move through the remainder of Aries energy between now and 2027 with a few retrogrades in between to help us be reminded that healing our wounds comes in layers. We are never really 'over something' but we can find new facets of ourselves and our own medicine with each revisit. Chiron reminds us of our tenacity, our ability to heal ourselves, and to share that medicine with others, to transform otherwise difficult experiences through alchemy. When Chiron is in Aries it is a time of action, to walk our talk and to enact real change in regards to our wounds. It is a time where we may impulsively react due to our wounds, so we will need to take a pause before jumping in fully but it can also be a very powerful period to bring the wounds to the light. If there is something that you have experienced that you don't want someone else to go through this is a time to bring that cause to light. With Aries we're not messing around, we need to mobilize our healing, we need to create movements around it. It's a time to allow our anger and fury to become channelled into positive change in our world. To use our words and actions in an empowering way, to become the light. It is a period where we will no longer be silenced, and where we will allow our wounds to help us to become who we are meant to be.

Mars in Sagittarius (December 13, 2021 - January 25, 2022)

When it comes to fiery action taking Mars entering Sagittarius we find the themes of adventure, risk-taking, freedom, higher education, spiritual seeking and sharing knowledge become highlighted. During its 6-week stay in Sagittarius, Mars is asking us to step up and commit, in a way that feels counter-intuitive. This is not about adding pressure or creating more discipline to our lives, but instead freeing ourselves from all the things that are inhibiting our growth and sense of adventure. You may find yourself acting more impulsively during this transit, and wishing to challenge anything that feels suffocating or repressive. There can be experiences of being short-tempered here, especially if you feel weighed down, or that others are dumping their responsibilities on you. It's important here not to just take action, for the sake of acting, but to dive into why it's so important to you FIRST. What do you feel you are missing in this area of your life? What do you feel you have sacrificed or compromised on that no longer sits well with you? This is an opportunity to spice things up and go on an adventure! Even if that adventure occurs behind your computer screen, we are seeking a deep need to have our work mean something, to do work that fills us up and lights our fire. This isn't a time for compromise, but you can stop and take a few breaths beforehand, don't worry you won't lose your mojo (so long as you commit to taking action), but you may prevent yourself from saying something (or going about it) in a harsh or potentially hurtful way.

Mercury in Capricorn (December 13, 2021 - January 2, 2022)

During this transit, it is helpful to look at what house Capricorn falls in your chart, as the planet of communication and technology will be moving through it, and influencing this aspect of your life. When Mercury enters Capricorn we are encouraged to consider our words, language, and intention. Our thinking can be quite methodical, practical, and down to earth. You will find it easier to focus on the tasks at hand during this period, along with an amplified memory and attention to detail. This is a powerful transit for business as it helps us to become

more structured, logical, and organized, easing our ability to weed out what is relevant and important in our work, tasks, and goals. We must be cautious of depressive and rigid types of thinking during this transit and a heightened sense of moodiness and pessimism. It is helpful to approach this period with not only an open mind but also an open heart, as our directness can sometimes come across as cold, even though we may be feeling that we're just stating the facts. This transit reminds us to try to find the 'fun' and play in our work, after all 'All work and no play make Jack a dull boy (or girl)' ;) If you have been desiring support to get really clear in your work, structures, systems, and strategy you're going to love this transit.

Neptune Direct in Pisces (December 1, 2021 - March 21, 2022)

Dreamwalker

Neptune is making its way through Pisces where it will remain until 2027. This Journey it is taking is quite extraordinary and only happens every 165 years. Neptune in Pisces is here to connect us not only to our intuition but to our subconscious and to all of life on the planet. Neptune is the ruler of the seas (all water on earth) and Pisces is the fish that lives in them. Like a fish we don't notice our environment we aren't aware we're 'IN water' and yet without it, we would not be. All living beings on Earth need water and are made up of water to some extent. We are 70%+ water, and this transit is here to wake us up to who and what we are and the damage that is being done to the world around us. To help us question what is real (as Neptune also rules illusion and delusion) and the ways we have been lying to ourselves or believing the lies of the 'mainstream'.

We have in many ways disconnected ourselves from all of life ignoring the way we are damaging the planet and how each choice we make every day has an impact because we feel sad and depressed at the state of the world, its problems feel too big to solve. But when it comes to Neptune in Pisces the solution comes from within, to acknowledge our internal environment and discern the true from the false within us. To ask ourselves deeper questions and to receive the answers from within us. TO remind us that WE are a part of this source, just like all drops of water are a part of the bigger ocean, we are not separate. Often when life and the state of the world become overwhelming we try to distract ourselves by focusing on things that cannot nourish us, that cannot fulfill the deep hunger and longing we have inside of us for meaning and

healing, but with this transit we are being called within, to find our own nourishment and sustenance from within (rather than from outside of us which is contributing to the damage and harm we are seeing in our planet and world on all levels).

This is a time to cultivate your intuition, to listen to your dreams, and to work with yourself to dive deeper into understanding the mechanism and patterns you are repeating (Pisces is also the natural ruler of the 12th house, which is where we hide things from ourselves, and where our subconscious and trauma reside). The way to heal the planet is by more of us working with this unknown and often scary part of ourselves and bringing awareness and healing to it. This will create a ripple effect that has the power to change and heal the world to a magnitude that we cannot yet comprehend. If you are feeling drawn to lean into your own intuition to use it in your work, to use it to work with clients, this is your nudge. The veil between you and source (your intuition) has never been thinner than it is right now.

Mercury in Sagittarius (November 24 - December 13, 2021)

This transit is excellent for amplifying our communication, connections, and enjoyment of others. When Mercury moves through Sagittarius we express ourselves with excitement, and enthusiasm and are open to passionate exchanges, discussions, and debates. Mercury helps us to put words and a clearer vision to what lights us on fire and keeps us going in our work. This is a great period to broaden your horizons, explore new studies, take a trip, or simply explore parts of your city or neighbourhood and communities that you haven't yet met.

Sun in Sagittarius (November 21 - December 21, 2021)

During this transit we are inspired and feeling a heightened sense of creativity, passion, adventure, and need for personal growth. We want to experience the fullness of our life, and expand our horizons. We know that our exploration of the world will help us to understand and unlock aspects of our own self. We feel alive when we are on the move and free. It can be helpful to focus on the big picture of the smaller aspects of our lives, and projects.

Venus in Capricorn enters Pre-Retrograde Shadow
[November 17 - December 19, 2021]

11- 26 Degrees Capricorn

In the shadow period of a Venus Retrograde, we are beginning to review our relationships at a much slower pace than what we're used to. We might have old commitments or relationships even show up, just so that we can make a more mature choice about them. We may not see the effects of it right away but make no mistake, it will eventually come even if that's after Venus goes Direct.

Some part of this whole transit is calling you to level up professionally and the relationships both business and personal will be put on a chopping block. Are you investing energy in connections that have a return on investment?

Venus in Capricorn doesn't desire the kinds of fairytales we see in stories. It thrives in the long, slow-building of trust, sensuality, and intimacy through action. It's less interested in promises and words and far more attracted to intelligent decision making and maturity. Real love to this sign is in weathering the uncontrollable elements of life together and coming out stronger together as you grow.

This same philosophy can be applied to your business, in the way you work with it as a partner. Are you doing your due diligence when it comes to being a responsible entrepreneur? Staying organized? Doing your taxes? Organizing your finances? Growing and generating new ideas? Making sure your people are happy? Being a business owner comes with some heavy responsibility but this transit encourages us to be willing to take that weight on and trust that as we

grow we will find ways to be smart and make it lighter. This is the commitment we make to being our best in business.

Finances:

Venus Retrograde (and pre-retrograde) is here to draw our attention to how and where we're spending our money and what we value. Monitor your leaks, notice where you spend, and whether you are getting your money's worth. Once Venus goes retrograde, hold off on major purchases or you may find you buy something that no longer fits who you are, and who you are becoming, or the future you had in mind for yourself.

Once Venus goes direct, we can then put all of our Venus relationship and financial lessons into practice and take some more significant action.

Venus in Capricorn [November 5 - 17, 2021]

Venus is all about love, beauty, relationships (with ourselves and others - think self-love and acceptance), and money. Capricorn is about rules, hard work, and commitments.

Business:

During this transit, we may be encouraged to re-evaluate our self-worth, how we value what we bring to our work, whether we are getting the validation and acknowledgment we want from our work, and assessing your current role, direction, and path, to see if it is offering the fulfillment you need and desire. This can help you to harness the courage and intention that's needed to make some major business decisions that will help you to reach new heights in your work and success.

Relationships:

This transit is asking us to be willing to step into difficult conversations in our relationships with the understanding that relationships that last can withstand facing up to difficulties with courage and a willingness to do what's needed. It is asking you what you are committing to in your relationships (both intimately and professionally). How are you showing up and showing that you care and value others (and yourself)? Are you willing to put in the hard work to earn the trust and loyalty you desire? Are you willing to do the inner work on yourself, to love and care for yourself? This is a period that encourages us to stick out difficulties with the intention of trying to make them better. It's that without a little elbow grease we aren't going to have the types of relationships we desire. That without the hard conversations (with ourselves and others) we cannot have the level of authenticity we crave. The types of relationships that can traverse the challenges that life throws at us. If you tend to run away when things get hard, your reward now will be in sticking it out and staying in the room. This is an opportunity to take things deeper and connect on an even more profound level. If you are single, this transit can highlight our desire for a long-term relationship. So it can be helpful to ask yourself what difficult or scary things have you been unwilling to do, on your own or in a past relationship? The answers to this can help provide the key to what's next for you in terms of forging the relationships you desire.

Mars in Scorpio [October 30 - December 13, 2021]

Baby come and light my fire. Mars in Scorpio is a period of fierce intensity, especially in the area, it's transiting in your chart. In general, Mars in Scorpio encourages us to go for exactly what we want, and not be shy about it. This can create challenges in regards to jealousy in relationships, flings, affairs, or a desire to come out of the closet and not hide our desires, passions, and needs, both sexually as well as in any area that we feel passionate about. In regards to work, this is a time to decide clearly what you want and go for it. This can be a period where we are relentless about what we want and may push ourselves to extremes so be sure to have some time scheduled in for 'downtime' or rest regardless of what project you decide to focus on. There is a great passion and

determination when Mars is in Scorpio, this is a great opportunity for success so long as you are clear on what you're passionate about - if we don't have the passion and clarity we may direct this intensity inwards at ourselves which can create a great struggle and lack of compassion towards ourselves. The message with Mars in Scorpio is don't overthink it, pick something and go for it, you will make far more progress than you can imagine, there's no need to overcomplicate it.

Sun in Scorpio (October 22 - November 21, 2021)

During this transit, we will be drawn to our inner world, to our intuition, and to spiritual and metaphysical teachings and journeys. Scorpio holds the veil between worlds, between life and death, dark and light, between wound and healing. It is an invitation to go more deeply into our water and intuitive side and see what messages we can find. If you have been craving a realness, to be more in tune, and connected with yourself and the spirit world this is the perfect transit to dive in and allow it to take you where you feel most drawn.

Jupiter Direct in Aquarius (October 17 - December 28, 2021)

JUPITER IN AQUARIUS (DIRECT - POST RX SHADOW) 22 AQUARIUS

POST SHADOW ENDS JAN 8, 2022 AT 02 PISCES

In the late 90s, Apple adopted a simple yet powerful slogan: Think Different. In two words, Apple extended a challenge to a wide audience for adopting an ethos of alternativity. While Jupiter is in Aquarius, the cosmos are asking the same of you. Instead of rethinking the modern computer, though, Jupiter is asking you to examine the beliefs that you hold as parameters for perception. Yes, that's right. In astrology, a belief functions as a parameter for perception, an

indirect input for the show we call reality and the story we call life. The way this works is pretty basic. It involves turning a common expression on its head. Instead of saying "I have to see it to believe it," during this time, we can say: "I have to believe it to see it" because, in manifestation, we work backward from our realized wish.

If we can figure out which beliefs we have installed (first), and how they operate (second), then we will have successfully navigated Jupiter in Aquarius. If, on the other hand, we find ourselves second-guessing our beliefs or feeding into an unhealthy reality picture, then perhaps we have more work to do. During this time, the onus of belief identification is completely on us. After all, we are the ones who live inside our minds. How do you plan to think differently? During this astrological moment, which beliefs are up for review? With Jupiter in Aquarius, we are being asked to renegotiate our relationship to manifestation itself, our ability to magnetize or attract that which we desire. If you feel like you are lacking in this area, perhaps it is time to strength test your belief (like a muscle test but for your soul). How badly do you desire what you desire? If I told you that your treasure is available but it is located at the top of a steep mountain, would you climb it?

Remember, beliefs can be subtle. Everything from the assumptions you make on entering a Taxi to the faith you rely on when signing a business deal. Sometimes, belief is ungrounded energy, reaching for security or certainty. No matter the way belief shows up for us, we are in a space of review, curiosity, and understanding during this transit. Not only are we ready to think differently, but we are also taking the actionable steps to re-engineer our lives along these lines, from the immediate and the practical to the subtle and the energetic. This is a time for re-invention, a time to think differently, to turn your industry on its head and do it differently. It's really a time to re-invent the wheel, I mean why do we need wheels when we can fly?

Saturn Direct in Aquarius (May 23 - Oct 10, 2021)

06° Aquarius 53'

SATURN DIRECT - POST RX SHADOW ENDS JANUARY 15, 2022 AT 13 AQU 31'

As Saturn returns to its forward movement in the sky, our minds are more or less done reviewing information and now we're much more focused on how we can properly apply the lessons we're learning. Without testing our ability to stay consistent and disciplined in how we're showing up in your community, we don't truly know our mettle. Embrace this retrograde transit and its shadow period as a training ground for the mind, where you learn to think with more complexity and gain access to the profound innovative downloads that come with the Aquarian, future thinking mind.

SATURN IN AQUARIUS

This transit will last for the next 2+ years. During this time we will see a surge in the sale and marketing of information, a disassembly of old traditional ways of education, marketing, and media, and an increase in innovation, discovery, and new technology. We will also see an increased interest in Astrology, Psychology, and other consciousness-expanding tools, techniques, practices, and systems. This will be a period of great change. With this transit, there will be a shift from personal interests and wants to what is best for the planet, humanity, and the collective. We will see an even greater impact from our personal choices on the whole of the planet and all species. This will highlight the need for greater personal responsibility and initiating further change in regards to the environment, waste, public health, social supports, technology, and the rules governing it and the impact of the 'economy' on global, personal, and environmental health.

2020-2023 Saturn Return for those born between

February 1932 - February 1935

January 1962 - December 1964

February 6, 1991 – January 8, 1994

Saturn returns to each sign once every 29 or 30 years for approximately 3 years. Saturn was last in Aquarius from 2/1932 to 2/1935, 1/1962 to 12/1964, and from

2/1991 to 1/1994. Saturn will again be in Aquarius from December 17, 2020 (after a brief stay there from March 21 to July 1, 2020) through March 7, 2023.

Saturn Returns are periods of great change, challenges, and adversity where we will feel the pressure to become more of our own person.

Venus in Sagittarius [October 7 - November 5, 2021]

Venus influences love and money, through our experience of this transit there is an increase in our desire for adventurous and demonstrative love and affection. We are inspired by taking risks, having a good time, extravagance, and feel more free, fluid and open to new experiences. We want more experiences, growth and are willing to test the waters a lot more than usual. This also applies when it comes to how we spend our money, and where we are investing it. We want to use our funds for more experiential, spiritual, philosophical and growth-based focuses.

Pluto Direct in Capricorn (October 6 - January 27, 2021)

26 - 24°

Pluto will remain in Capricorn until 2024, over the next 3 years we will see significant changes and transformations in all the areas that Capricorn rules such as governments, rules, foundations, regulations, currencies, economies, resources, money and legacies. This will not be a simple rebuilding or redesigning, the change will come through power struggles, the use of fear for control, uncovering the deep subconscious, and a willingness to surrender or risk great loss for a sense of purpose and meaning.

Pluto is here to help us transform ourselves, to find our purpose, and to remind us that freedom should never be taken for granted. We may find great conspiracies, abuses of power, and a need to stand up for rights (as rules and laws can be used as coercive measures by those wishing to gain more power and control). This is a time where we are reminded of what's important to us, and that we cannot remain complacent for the things that are of real value. Use these next 3 years to stand strong for what's important to you and to deeply inquire what you are willing to give up, sacrifice or surrender to live a life of real meaning and significance.

Uranus Stations Retrograde (14°-10°) (August 19, 2021 - January 18, 2022)

14° - 10° Taurus

'look at areas of focus/events that occurred between May 3 - August 19th, 2021 to give you insight into what area of life this retrograde will be felt for you'

Uranus rules rebellion, war, change, revolution, freedom, confronting fear, speaking our truth. It is 'the great awakener'. This retrograde highlights what doesn't feel aligned and where you're sabotaging and holding yourself back. Be honest about who you are and what you want. Go with your hunches/intuition. Uranus helps to clarify a new direction. Embrace change and 'not knowing'. This period often forces us to deal with our dark side, parts of ourselves that don't align with our values. But if you allow this to move through you when Uranus moves direct you will have the opportunity to make a massive change. Watch out for: Following formulas, systems, and the 'norm'. Systems and structures can tend to feel suffocating at this time. Be careful to not interpret this as a sign that you're not capable or that you've made a poor choice. Personal changes may feel slow or difficult at this time. And the need to feel independent and rebel may be felt strongly right now. Uranus Retrograde can mean massive changes often in areas we weren't expecting or desiring, but it is for your long-term benefit. The truth will set you free. To see what area of your life will be

influenced by this retrograde, see your chart and the current transits and locate what house Uranus transit falls under.

Chiron Direct in Aries [July 15 - December 19, 2021]

Meeting Ourselves Where We Heal

12 - 8* Aries

With Chiron turning retrograde in Aries, we are healing our relationship with all things Aries. From violence in the shadow to assertive action in the light, the energies of Aries are all coming to the fore during this time, requiring our attention to heal any distortions or misdirected lines of energy. In particular, we are examining any wounds we have around taking action, a hallmark of Aries. During this time, our ability to stand up for ourselves is coming into question, our existential courage. Also known as our will to exist, existential courage is a pronouncement of being, a statement of life. If you think back to recent times, has there been a moment where you wanted to act but did not? A time when you were going to stand up for yourself, but you held back? We all have these moments and perhaps less important than our response at the time is how we make meaning and move forward after the fact. As Chiron retrogrades, we continue to gain visibility into these moments of vulnerability while learning about ourselves. We continue to make sense of the healing story of our lives.

When we have existential courage, we are fearless, acting from a space of original boldness. When we are searching for existential courage, perhaps the path is not as clear. The paradoxical truth is that despite what we think, we always have the courage that the moment requires of us, but we may not always be dialed into its frequency. If we think of consciousness like a radio dial, perhaps we are on a different station right when the moment comes. In this period of time, we are healing our ability to switch back to the other station, the station that supports growth, evolution, and development. As we perfect and grow this ability, we come into a deeper resonance with any healing that needs to take place. Not only do we identify the misguided assumptions that have been holding us back, but we transform them into energetic assets that do not

weigh us down. On the contrary, they lift us up. No longer do we carry energetic weight around with us. Our only choice is to stand up for ourselves and if we can get to this space during this Chiron retrograde, we will have achieved a significant milestone.

NOTE: It's important to be aware at this time, as Chiron is the wounded healer, and represents the inner wound we all carry, we need to be mindful that we don't direct violence or harm at ourselves (with this being retrograde), that we instead focus on positive internal action to help ourselves overcome our wounds and pain. Often when it comes to trauma, the victim will internalize the reason for the trauma as being because of something they did, said, or are. When Chiron goes retrograde and in Aries none-the-less we may find more trauma coming up, especially in areas where we may need to defend or protect ourselves, or triggering our trauma responses. It is helpful to schedule in self-care, therapy, journaling, or things that help YOU to feel like you're taking an active stance towards your own healing.

Neptune Retrograde in Pisces (June 25 - December 1)

Dreamwalker

Neptune now turns retrograde at 23° - 20° Pisces

Neptune rules both sleeping and waking dreams, imagination, fantasies, optimism, and idealism (in life and romance). Review your opinions, values, and belief systems, listen to your gut. Work with the spiritual and mystical while keeping yourself grounded. Dreams, yoga, meditation, astrology, tarot, and deep inquiry can be very healing at this time. Contemplate your spirituality and belief systems. Focus on your creativity and allowing what wants to come through to do so, unhindered. Let go of anything that feels heavy. Watch out for - unrealistic or fluffy thinking, seeing people, and circumstances as you want to see them rather than as they are. Overindulgence in numbing agents. Emotions may run high or over the top. To see what area of your life will be influenced by this retrograde, check the current transits in your chart and see what house Neptune is moving through for you.
