

**Department:** MS Math

**Course:** Basic Math

**Grade Level:** 7

**Length of Course:** Full Year

**Primary Resources:**

PA CC Standards and Eligible Content Grades 5, 6 and 7  
Math curriculum  
Extra practice worksheets  
Superteacher worksheets for review of math concepts

**Units of Study:**

Unit 1: Numbers and Operations  
Unit 2: Algebraic Concepts  
Unit 4: Geometry  
Unit 5: Measurement Data  
Unit 6: Probability

**Curriculum-Based Assessments:**

teacher made assessments, exit tickets, assessments within the curriculum

**Standardized Assessments:**

PSSA Math Testing, Study Island Benchmarks, Aimsweb Benchmarks,

**Description of Course:**

We start at the 4th-grade level and work our way to the 7th-grade material. Some additional concepts we cover include telling time to the 5-minute interval, elapsing time, identifying all 4 coins and knowing their value, and reading and writing numbers to 1000 using base-ten numerals, number names, and expanded form. Their goal is to become confident and efficient when applying their math skills.
