

As of 9:15PM on 12/11/2023: 1,184 Confirmed Signatures

To The Harvard Corporation and The Board of Overseers:

We, the undersigned students, alumni, and members of the Harvard community have lost confidence in Claudine Gay to carry out the duties and responsibilities of the office of President of Harvard University. Our signatures attached signal our vote of "No Confidence" in her ability to serve as President of Harvard, and we implore her to resign or for the Harvard Corporation and Board of Overseers to replace her immediately.

President Gay began her recent testimony to the US Congress on December 5, 2023 by saying she "[represents the full Harvard community](#)." Based on the testimony that followed, this is not the case. When questioned by Congress regarding whether calling for the genocide of Jews constituted bullying or harassment at Harvard, she responded that it "depends on the context."

We, the undersigned, strongly disagree. Harvard's well documented history of responding to far less severe cases of speech targeted at other minority groups and views show that President Gay selectively applies the principles of free speech to protect certain groups over others. President Gay's demonstrated lack of moral clarity, coupled with her mishandling of the rise in antisemitism at Harvard since the terror attacks against Israel on October 7, 2023, has resulted in an erosion of trust among members of the Harvard community and demonstrate that she is unfit to lead this institution. No apology or messaging will walk back the testimony she gave under oath to the nation and the world.

It is not appropriate for Claudine Gay to serve as President of Harvard, as she does not represent our collective values or the Harvard that we have come to know. President Gay must resign or be replaced.

We extend our love and support to the Jewish community and all other victims of hate. We look forward to helping the Harvard community heal.
