Guide to Your Onboarding Tasks

As a new employee, you are required to complete Onboarding tasks through Oracle, our cloud-based Human Capital Management system. **Onboarding tasks include required federal and state tax forms, policy acknowledgments, direct deposit, etc.**

- You will be able to login to Oracle on your first day at Champlain (but not before). Oracle can be accessed with your Champlain username and password. To complete your onboarding tasks, log in to Oracle through the [Single Sign-On link](#) or through the [Faculty and Staff page](#). If you go through the Fac/Staff page, click Oracle (under Additional Resources) and then Single Sign-On to log in. If you have trouble logging into Oracle with your Champlain email, please email peoplecenter@champlain.edu. Include a screenshot of any errors you get.
- Once you are logged into Oracle, navigate to the Me tab, and choose Onboarding.

- From the Oracle homepage, you will be brought to your Onboarding page where you will find all of your required Onboarding tasks awaiting completion.

- When you click into each task, you'll be brought to the task page where you will click at the top right hand corner "Go to Task".

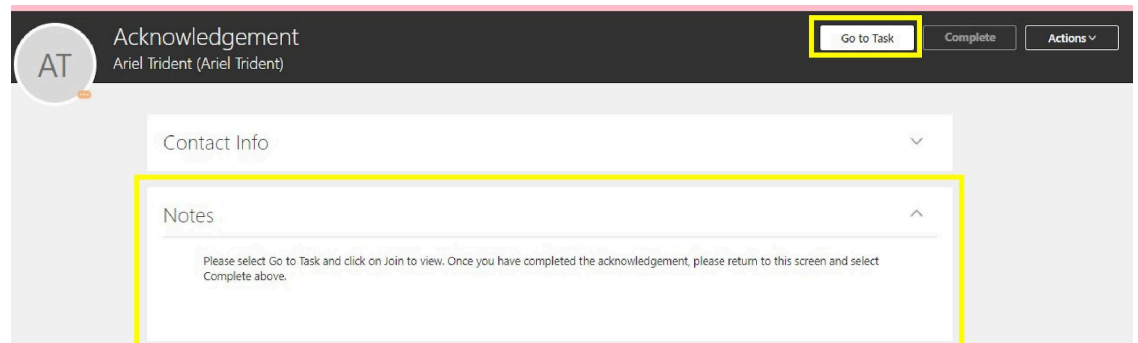

- Another browser will open, and you will be asked to validate and complete the corresponding task. Once the task is completed, go back to your first browser with your main task and mark as “Complete” at the top right-hand corner. As you complete each task, you’ll see your percentage for your tasks increase as they are validated as completed.
