

Help A Neighbor! Hardware Troubleshooting Infographic

Objective: Create a infographic and showcase your understanding of computer hardware troubleshooting

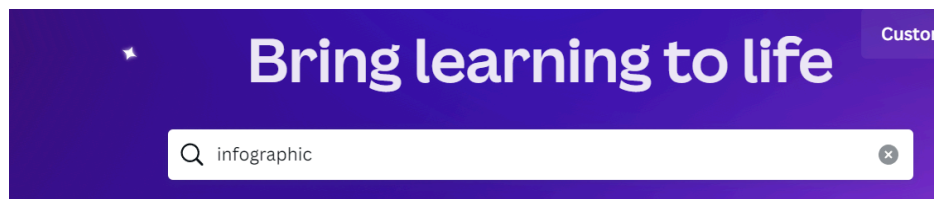

Introduction: You have recently become acquainted with an elderly neighbor who is facing persistent computer issues. They have sought your assistance in resolving these problems. As a computer-savvy individual, you have decided to compile a comprehensive troubleshooting guide tailored to their specific needs.

Use these videos to help you create your troubleshooting guide!

- [Troubleshooting basics for kids](#)

Directions: *Your goal is to create a clear and concise infographic document detailing step-by-step instructions for resolving common computer issues that they might encounter. Consider the first steps one should take to solve and issue, and if that doesn't work what are the follow up steps?*

1. Use Canva or a similar resource to create your infographic
 - a. Search for an infographic template

2. Select at least one common computer hardware issueEx: No display,computer isn't powering on, overheating, strange noise, peripheral device not working
 - a. Research ways to figure out the cause of the problem and how to resolve
 - i. Take notes as you do your research
 - ii. Paste source links into private comments on Google classroom
3. Use Canva to create a step by step guide of what your neighbor should do to resolve this issue
 - a. Type step by step instructions for solving the issue
 - i. Consider what you discussed in your group
 - ii. Consider what you should do if the first thing you try doesn't work?
4. Download your infographic as a PDF and upload it on Google classroom

Rubric for Hardware Troubleshooting Infographic Assignment:
