Abstract An abstract should be not more than 250 words, formatted in Microsoft Word, and single-spaced, using size 12 Times New Roman font. Please make the page settings of your word processor to A4 format (21 x 29,7 cm or 8 x 11 inches); with the margins: bottom 1.5 cm (0.59 in) and top 2.5 cm (0.98 in), right/left margins must be 2 cm (0.78 in). Include the following elements in the abstract: a problem statement, objectives, brief methods, results, and significance of the findings.

Keywords: Word1, Word2, Word3, Word4, Word5

Introduction

Text should be formatted in Microsoft Word, and single-spaced, using size 12 Times New Roman font, with the margins: bottom 1.5 cm (0.59 in) and top 2.5 cm (0.98 in), right/left margins must be 2 cm (0.78 in). First lines of paragraphs are indented 0.5 inch. The introduction should conclude with a brief statement of the overall aim of the experiments. To insert the in-text citation, use the author-year system, i.e., the author's last name and year of publication (Benjamin, 2010).

Materials and methods

This section describes the design, procedures, data sources, analysis techniques, and tools you used to conduct your research. Provide enough detail for the reader to understand and replicate your methods. Explain how you ensured the validity, reliability, and ethics of your methods. This section can be divided to sub-sections.

Results and Discussion

The section should provide details of all the experiments that are required to support the conclusions of the paper.

Format of Tables

Table is used for summarizing the information which representing counts of various types of observations. Format of tables are listed.

1. Tables must be cell-based without vertical lines.
2. Table number in bold above the table. Brief caption is next to the table number.
3. Clear, concise labels for column and row headings.
4. Every Table must be described in the main text and referred to as "Table(s)"

Format of Figures

Figures include all graphical displays of information that are not tables. Common types include graphs, charts, drawings, maps, plots, and photos.

1. The readability must be the ultimate criteria for every figures.
2. Figures must be provided in a file format and resolution suitable for reproduction, e.g., EPS, JPEG or TIFF formats, without retouching.
3. Insert the figures into the main text, type figure caption below the figure.
4. Every figure must be described in the main text and referred to as "Figure(s)"

Conclusion

This section summarizes the main points of research and restates main contributions and findings. This parts should be expressed the success of the finding which correspond to the objectives. Moreover, the authors can express the suggestions for the further work here.

Acknowledgements

The funding sources that have supported the work should be included in the acknowledgments.

Additional note:

Page Numbers: **Do not** number your paper.

Special Signs: For example , α γ μ Ω $() \geq \pm \bullet \Gamma \{11 \bar{2} 0\}$ should always be written in with the fonts Times New Roman or Arial, especially also in the figures and tables.

Language: All text, figures and tables must be in English.

Equations: Equations should be indented 5 mm (0.2"). There should be one line of space above the equation and one line of space below it before the text continues. The equations have to be numbered sequentially, and the number put in parentheses at the right-hand edge of the text. Equations should be punctuated as if they were an ordinary part of the text. Punctuation appears after the equation but before the equation number. The use of Microsoft Equation is allowed.
