

FREE WELDING COURSES INFORMATION

Due to the COVID-19 outbreak, The Canadian Welding Bureau, CWBi Acorn team, and The Certified Welding and Testing Co, are excited to announce that we are providing 17 online welding courses to high schools and colleges at no-cost. We know a number of schools are needing additional supports to teach classes through distance learning and our aim is to support students and educators in this tough time.

In order to gain access to the program, I have attached the following documents to be completed:

1. Temporary license agreement

2. Class list form

Security: Please note we are not storing the data from the class lists. We do not require complete or even accurate first and last names for the class list, however, if teachers want to track student grades and progression they can complete this as required.

Process: Once these documents are completed and submitted to Jiah Yang (Jiah.Yang@cwbgroupp.org), within 24-48 hours we will provide teachers with login information for the courses and the Acorn staff can arrange a webinar on using the system. If you have any questions please do not hesitate to reach out to Jiah Yang (Jiah.Yang@cwbgroupp.org, 1-289-668-0830)

For more information on our platform and content, please visit our website:

<https://www.cwbgroupp.org/acorn>

Thank you,

Let either of us know if you have any questions
