

Hello, clients, commissioners and partners.

I would like to inform you that starting February 1st 2025, there will be slight changes to my service prices. These changes are made to more properly reward the time I spend on videos, as well as to keep everything fair for the commissioner side! (Meaning, not all changes will be full on price raises.).

These changes will only affect my shorts editing.

First off, I would like to start off with my **short-form VOD editing** service, which has been 15€ per edit up until now. I have now split it up into 3 different pricepoints:

Shorts up to 15 seconds will be 10€

Shorts above 15 seconds and up to 30 seconds will be 15€

Shorts above 30 seconds and up to 60 seconds will be 20€

Shorts above 60 seconds will be priced at the same rate as my long-form service (20€/1 minute)

This change was made with the idea to be paid more fairly depending on the length of the video I edit, while also letting people with either less budget or people that need more compact shorts to have a nice discount, due to the length of the video!

Now the more complex and tougher decision comes with my **Clipping + Shorts Editing** service

While this is a tough decision, due to the time spent on average working on commissions like this, as well as considering the changes towards my Shorts VOD editing, I have decided on this:

I will NOT be increasing or decreasing the price of the editing (which is 15€) depending on the length of the video.

However to compensate for my time for going through streams/footage thoroughly **I will be increasing the clipping rate (which was previously 5€) to 10€.**

Which means that now, the Clipping + Shorts Editing service will now be 25€

All commissions and projects that have been started before the 1st of February 2025 will NOT change their original prices, this will only apply to commissions AFTER the date.

Thank you everyone for your continuous support and trust towards my video editing. While I know these changes aren't the most pleasant to look at, sadly due to financial struggles, rapidly raising inflation and overall displeasure towards current prices for essentials like food, water, electricity and internet to keep myself and my

career alive, I have come to the conclusion that these changes will be for the better.
Thank you for your understanding, and I wish you all a pleasant day.

Best regards,
JerryBlob
