

Dear Wake County Municipalities Associates,

I hope this message finds you all in good health for you, your families, and your communities. This message is going to all Mayors, Town or City Managers, Heads of Chamber of Commerce, Heads of Economic Development, and Heads of Parks and Recreation and other Departments for all 12 Municipalities in Wake County.

Greetings to you all from your Raleigh Firebirds Professional Men's Basketball Team. My name is Shai Szkolnik, and I am Municipalities Community Outreach Coordinator for The Firebirds. We have been fortunate to have spoken to some of you already, and we're looking forward to developing a lasting relationship with each of you. Our focus is centered around STEM (STEAM) Education and Health Education (mental health, autism, heart health, cancer awareness and MS). The Firebirds exist to provide a platform for post-college basketball players, to continue their dreams of playing professional basketball. In addition to this goal, the Firebirds will use its organization and games as opportunities to bring together a community that need resources with local organizations and companies that have the resources and services they need. We know that your community is rich with history, and we hope to share that rich history with our fans.

We are planning a meet and greet in January, and we'd love for you to come out and enjoy an afternoon with The Firebirds!! In the meantime, we will keep you updated on community events and activities that the Firebirds are involved in. Please follow us on social media. Instagram: @raleighfirebirds and @raleighpersonaltraining, Facebook: Raleigh Firebirds. Be well and we will see you soon.

Sincerely Yours,

Shai Szkolnik,
Municipalities Community Outreach Coordinator
