### Pass to Leave Class Tear Off Sheet

Name: \_\_\_\_\_

Our math class is very short and our time to learn together is precious. Please use passing time or lunchtime to use the restroom or water fountain or get supplies from your locker. I understand that sometimes there are emergencies and so please save these “tickets” for those circumstances (three per marking period). Please keep this sheet in your math journal so that it is available whenever you need to leave the room. After asking for permission to leave the room, tear out one “ticket” and place it in the piggy bank at the sign out table where you **must also** record your name, destination and time before you leave the room. Any unused “tickets” can be redeemed for \_\_\_\_\_ Dollars (or extra credit points, etc) at the end of each marking period (up to three per marking period).
