

## **Superintendent's Comments - August 2025**

### **Storage Containers -**

The second storage container has been delivered. Garrett will be working to get it placed in the rock base.

### **Concrete Bids for Behind Home Football Bleachers -**

We have two bids for pouring concrete behind the bleachers. One from Maendale Construction for \$10,500 and a second one for \$19,129.46 from Heartland Concrete & Construction.

### **Exhaust for Shop Classroom -**

Rutt's provided a bid for an exhaust system for the shop classroom to remove fumes caused from students welding. We are also seeking a bid from a welding company that works with this type of thing frequently. Rutt's bid is for \$7,921.00

### **Roof Work on West Band Room Stem Wall -**

Ziembra Roofing will be working on the west band room wall - \$2,342. This is an area of request leaks causing wet and stained ceiling tiles. The issue is the cap that was used to cover the rubber roofing material. We are hoping that this will solve this problem. This will be a test site as we have several other similar areas on our roof in various areas of the school.

### **Use of CTE Grant Funds -**

We purchased a Canon Poster printer that can also be used to make t-shirt designs, mug designs, and other items. Mrs. Burr will use this as a CTE opportunity to have an in school business. She will work with business classes too. The cost is covered by the grant - \$7,500. [Quote](#)

### **Work Done on Bus 12 -**

Bus 12 was taken to FleetPride for some work. The Decomposition tube was clogged and needed to be replaced. This tube works with the DEF system and was causing the check engine light to come on. This repair cost \$2,741. The engine on bus 12 is also exhibiting some compression leaks. This will have to be watched closely. Even though bus 12 is a better bus, compared to bus 11, it may be the one we need to trade first.

### **Back to School Inservice Days - August 11th, 12th, and 13th - Highlights -**

The back to school inservice days have gone well. Very good teacher appreciation.
