

Desire List

There's certain fandoms and characters I actively want to write for. This is *not* an exhaustive list, and of course if you want to commission a character not on here then feel free to inquire with me about them and I'll happily consider it, but if you had anyone here you also want to see content of, then I'd highly recommend asking me about it, as chances are your commission will be written quicker (and might just have a little extra writing that goes over the agreed upon amount if I'm really jamming with it).
