

Dear Parents and Guardians,

I hope this letter finds you well. As I prepare for the upcoming academic year, I want to clarify the 7th-grade math courses at our school.

I understand that there may be some questions about the structure and content of these courses. I assure you that both of our 7th-grade math courses will be paced identically and that the curriculum will be consistent across both classes. This means that regardless of which course your child is enrolled in, they will receive the same high-quality education and cover the same material at the same pace as their peers.

My goal is to ensure that every student has the opportunity to succeed and build a strong foundation in math. By maintaining a consistent curriculum and pacing, I can provide all students with an equitable learning experience and ensure they are well-prepared for future academic challenges.

If you have any questions or concerns, please do not hesitate to reach out to me. I am here to support you and your child throughout their educational journey.

Thank you for your continued support and partnership.

Sincerely,

Mrs. Renee Watkins
