

Cannonball (#NoDAPL)

Ladonna Brave Bull Allard
Gathered all the Standing Rock Sioux
corporate forces were trying
to impose a pipeline
She was already counting coup

The Dakota access pipeline
In the town of cannonball
It would flow through the ground
Underneath and around
The river that nourishes all

When those pipes full of crude
Start to age in the earth
The metal corrodes into rust
If the the oil did spill
The Missouri would fill
Sacred water transformed into sludge

Cannonball
Come, one and all
The Seven council fires
Burn brighter than
Kerosine
Gasoline
Cell phones and
TV screens...
Cannonball
Come, one and all
Earth guardians standing tall
In cannonball

The seven council fires
1876 it was formed
Where the seven Sioux tribes
Came to fight for their lives
At the battle of little big horn

Now this fossil fuel philosophy
could ruin the earth for all time

They are guarding the prize
To save all of our lives
A hundred and sixty-six tribes

We say no to your bloated, polluted careers
No to your corporate culture of fear
No to corruption
Your methods are nothing
But
Genocide
Colonize
Aggregate
Monetize

On to the next one
So it's no surprise...

Cannonball
Come, one and all
The Seven council fires
Burn brighter than
Kerosene
Gasoline
Cell phones and
TV screens...
Cannonball
Come, one and all
Let the oil barons crawl
home from cannon-

Cannonball
Come one and all

The people united
will not be divided
You Cannot defeat us
Stop try to fight it

Cannonball
Come one and all
Til the corporations fall
Cannonball
