Interior Review of the 2025 Mazda3 Hatchback

Inside the Mazda3 Hatchback, high-quality materials form an interior that would impress even luxury car owners. The seats are designed to keep the spine properly aligned, helping the driver stay both alert and comfortable. Even the way the body is welded contributes to minimizing noise and vibration. These elements combine to create an exceptionally comfortable space for a vehicle in this price range.

This Mazda exemplifies a master class in straightforward user-friendliness. The controls are easy to locate and operate, allowing you to maintain focus on the road.

The Mazda3 Hatchback offers 35.1 inches of rear legroom, which is competitive for the compact car class. This vehicle also has 20.1 cubic feet of space behind the rear seats. When the rear seats are folded down, you get a generous 47.1 cubic feet of maximum cargo space. You can load anything from bicycles, dressers, and surfboards into this space.

You'll also appreciate the central storage options available for the front passengers. These include a spacious, elongated tray that can hold most personal belongings and a small compartment to the steering wheel's left. Rear passengers benefit from door pockets throughout.

Exterior Review of the 2025 Mazda3 Hatchback

Resembling a shield, the Mazda 3's grille tilts forward to create a dynamic appearance for the vehicle. Strong chrome highlights lead into elegantly designed headlights. This hatchback features a noticeably larger rear roof pillar and a pronounced sloping roofline.

Below are some of the available colors for the 2025 Mazda3 Hatchback:

- Deep Crystal Blue Mica
- Platinum Quartz Metallic
- Machine Gray Metallic
- Soul Red Crystal Metallic
- Exclusive Polymetal Gray Metallic Paint on 2.5 S Carbon Edition
- Exclusive Zircon Sand Metallic Paint on 2.5 Carbon Turbo

Power and Performance of the 2025 Mazda3 Hatchback

Most Mazda3 models are equipped with a 2.5-liter 4-cylinder engine that delivers 191 horsepower and 186 lb-ft of torque. For those seeking more performance, a turbocharged engine option is available, offering 250 horsepower and 320 lb-ft of torque when using premium fuel.

Front-wheel drive comes standard, with all-wheel drive as an option. It is standard on turbocharged versions. Each model is fitted with a standard 6-speed automatic transmission. A 6-speed manual transmission is optional.

Key Technology Features:

- 8.8-inch Infotainment Display
