## How to access your Google Classroom and your MCS email account:

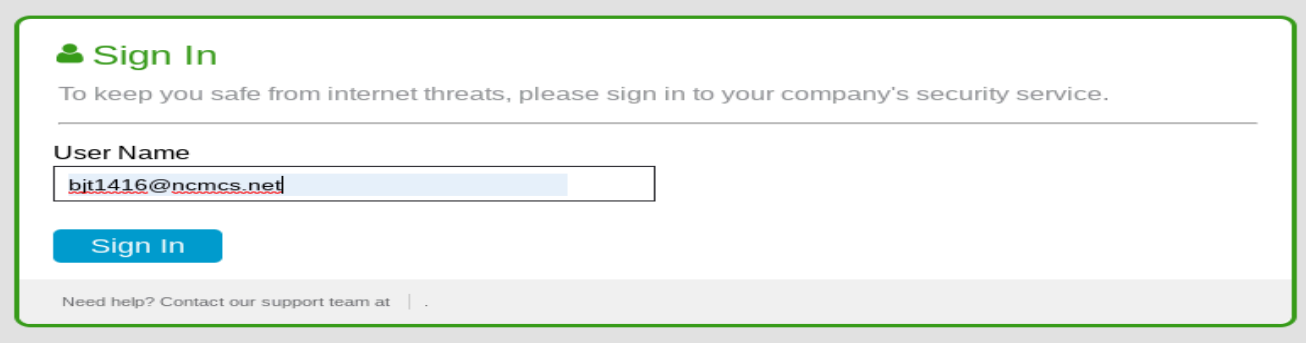

Hover your mouse over the bottom portion of your screen.

- Click on to open Google Classroom. Click on the + (join class) button at the upper right hand of the screen. Add the Google Classroom code from your teacher.
- Click on to open your school Google email account.

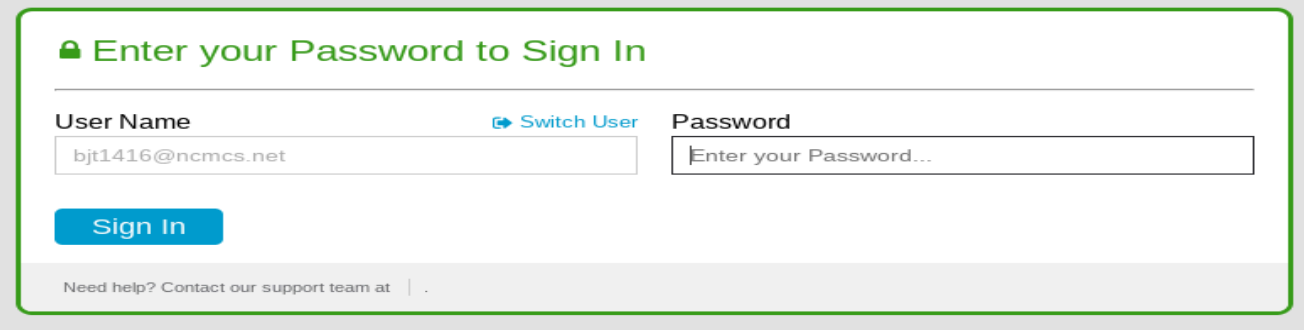

## How to log into Zscaler:

Zscaler is the MCS network security service. In order to visit different websites for your classes and protect yourself from internet threats, you will need to log into Zscaler. If you are not immediately prompted to log into Zscaler, then go to cnn.com.

Step 1: Use your email address as your User Name and then click *Sign in*. Your email address will be your User MCS User Name@ncmcs.net.

Step 2: Use your MCS password to complete the process.

*If you experience any problems with your Chromebook, please go to the site:
