### **Got kicked out of university and made my parents proud..**

I told myself it can't get worser than this  
It's 9 a.m in the morning and am late for class (again), on my way out I open the mail. Its a letter from the school, I received a "F7" which means I failed so many times the institution had to kick me out

Panic set in as I thought  
"I cant go out like this, what am I going to tell my parents?"  
I ran to the office and pleaded, luckily they gave me a second chance  
BUT I had to prove myself on the upcoming mathematics test next week.

**I had a week to become a Math genius  
What are the odds my previous math score was an F  
I needed a miracle so I went looking for answers  
I stumbled on a facebook post about a multimillionaire who became rich by  
improving his focus and productivity. I figured since I always sleep in class  
Productivity and focus is just what I needed  
Desperate for answers I bought the course and the rest is history.  
That week, I aced that Math test and even started a dropshipping business on  
the side. I managed to buy my mom a new car and move out my parents  
basement**

**This is the first time in my life that I had direction in my life and its all thanks to  
Jason's productivity tricks**
