

Literacy K-12

STRATEGIC LITERACY INSTRUCTION

DoDEA's NEW STRATEGIC LITERACY PROGRAMS

Three new curricula were procured for our K-12 Strategic Literacy Instruction for implementation beginning SY 2021-2022. Spring Forward and Steps to Advance replace Leveled Literacy Intervention in the elementary school and Read 180 Universal Read succeeds Read180 Next Generation.

Spring Forward (Grades K-1) and Steps to Advance (Grades 2-6) are Benchmark Education's literacy intervention programs in print and digital format that help build essential literacy skills across CCRSL through explicit strategy-based instruction. Targeted instruction helps students further develop foundational skills, oral language, metacognition, vocabulary, fluency, comprehension and writing to meet grade level standards in literacy.

READ 180 Universal is Houghton Mifflin Harcourt's intervention program designed to build students' reading comprehension, academic vocabulary, and writing skills. This program offers a blended learning solution that uses engaging content in print and digital formats to increase reading fluency and comprehension. In addition, System 44 is a digital program that can be used in conjunction with READ 180 Universal as differentiated instruction during small group rotation to build foundational reading and decoding skills for the most challenged readers.

K-12 LITERACY VISION

Provide every student with equitable access to comprehensive, tiered literacy curricula and instruction that will build their knowledge and skills in reading, writing, listening and speaking to actively and confidently participate in college, career and civic life.
