

► General Information

(This is an addendum to my standard [Commission Guide](#). The same guidelines outlined there still apply.)

Portrait icon commissions are now available! All icons come inked, colored, shaded, and with a simple/low-detail background (e.g. color splash, two-tone gradient) by default. (Background can be upgraded to a more complex design for an extra charge.) You can customize your icon with the following options:

- Frame shape can be circle, square, triangle, or card (slanted rectangle);
- Character can be facing to an angle of your choosing (e.g. side, $\frac{3}{4}$ profile, straight forward);
- Optional character name written in;
- Background color(s) and simple designs can be freely selected;
- Coloring for both character and background can be done in grayscale with pencil or marker, or in multicolor with marker.
- Shading can be cel shading, hatching, or stippling.

Special Offer: If you get a regular commission worth at least \$50, you can get one free icon as a thank-you gift whenever icon commissions are open! (This offer cannot be applied retroactively for commissions placed while icons commissions are not open.)

(If you use your icon, please remember to credit me! Thank you!)

(Last update: 2022-07-21.)

► Pricing & Examples

Prices are modified for this type of commission.

- **Base \$20** inked, colored, shaded portrait with color splash background ([example 1](#), [example 2](#))
- **+5\$** detailed background
