Title: [NAME], Vote Yes on a Ceasefire Resolution!

Dear Councilor [NAME],

On March 4th, members of the diverse West Lafayette community converged on the city council to demand one thing: call for a ceasefire in Israel's war on Palestine. The council was presented with testimony from those who have suffered the atrocities of conflict and occupation, and shown images of the young victims of this conflict. Our community is suffering deep wounds from the mass death overseas, and has called upon you to join countless other cities nationwide in passing a resolution urging for action to be taken and a permanent ceasefire to be established.

This genocide is being funded by our tax dollars. It is being given the green light by our elected officials, who are supposed to represent us. Yet, despite the overwhelming calls for ceasefire sweeping the nation, our representatives do not budge. It is time to codify the calls of the West Lafayette community in a way that cannot be ignored.

This tragedy is directly relevant to our community. We must address it with specificity and purpose.

A ceasefire resolution represents the overwhelming view of our community. It is the moral imperative of the West Lafayette City Council to stand against genocide. Voting against such a resolution is tantamount to supporting the immense loss of innocent life.

As a member of the West Lafayette community, I am urging you to vote yes on a resolution calling for an immediate ceasefire in the Israel-Palestine conflict.

Thank you,
[YOUR NAME]
