

THE KNIGHTHOOD MERITOCRACY ACT AMENDMENT

P.B. 007

Prince-Bishop Claudius Bracchus of Aesculus

PREAMBLE

Burghers Write, Knights Fight.

POLICIES

1. The Knighthood Meritocracy Act will pass as follows but with the addition of the following amendment:
2. Peers ranking Count and higher have the authority to maintain squires and appoint them to knights or their person within their demesne.
3. They would register said squires with the Office of the Grand Knight, who may appeal any certain squire's appointment if they do not meet the requirements of the office.
4. The actual knighting of said squires would still, as always, fall upon the Emperor, the Grand Knight and the Order of the Red Dragon to ensure that merit among the ranks is still maintained.
5. This would ensure that the vassal-Imperial cooperation mentioned in the bill can be properly enforced by the great Lords of the Empire.

Proposed 14th of Tobias's Bounty, 1689
