

Recommendation Letter

PANE-2026 — Early Career PhD Student Support

Date: _____

To the Organizing Committee, PANE-2026

Subject: Recommendation for [Student's Full Name] — Application for Early Career PhD Student Support

I am writing to support the application of **[Student's Full Name]**, currently a PhD student in the Department of **[Department Name]** at **[Institution Name]**, for the Early Career PhD Student Support offered by PANE-2026.

[Student's Full Name] is currently in the **[1st / 2nd]** year of their PhD, working under my supervision on the topic of **[brief research area / title]**. Based on my assessment, the student is at an early stage of their doctoral research and would benefit significantly from participating in and presenting at this conference.

I confirm the following:

- ☐ The student is not currently receiving any fellowship (institutional, national, or external).
- ☐ The student is not currently supported through any funded research project or grant.
- ☐ The student has no other source of funding to cover participation in PANE-2026.

I recommend **[Student's Full Name]** for this support and believe their participation in the conference will meaningfully contribute to their academic development.
