

Trade List 2

Hybrids okay. Mods possibly okay, depending on mod (sculpts with elf ears/teeth *must* have them intact). Damage/yellowing okay, depending on the extent.

Trades might require money/items on your end, can possibly add money/items on my end to even things out (I might need layaway if what you're offering cost a lot more than what you want and I will make the payments before trade items are sent out).

Trade partners must be in the US. We must ship on the same day, I can only get to the post office after work Monday-Friday (my PO is closed on weekends). If you have little to no feedback, then your part of the trade must be sent first and I will send my part once it has arrived. Trade items must be shipped via a similar method and fully insured.

Items in *italic purple* are higher priority. Items also in *bold* are highest priority.
