

The Children's House Summer Camp Potty-training Requirement

The Children's House does not have the facilities to change diapers or pull-ups; nor are we licensed.

Children have to be completely potty trained before they can attend Summer Camp, or Preschool during the school year.

What being potty trained looks like:

- Being able to assess, on their own, when they have to potty.
- Walk into the bathroom, turn on the light, and close the door.
- Pull down their own pants, sit on the potty, wipe when they are finished.
- Pull up their own pants, flush and then wash their hands.

This is how we determine whether or not a camper or a student is ready to come to summer camp, or to our preschool.
