Bio:

Jay Razzouk is a corporate attorney and co-founder of ProSCALE Legal. Jay equips coaches, influencers, and mastermind leaders with the little-known legal strategies and paperwork that they don't even know they need to scale to 7 figures and beyond.

Like most people, Jay doesn't like contracts. This is why he's pioneering the "ProAct"™ – a turnkey framework-in-a-box designed to boost profits and build life-long relationships while protecting one's legacy.

[FOR HEALTH COACHES] Jay and his wife Wendy are also passionate about prevention, both legal or health. This is why they developed Strategic Health Coaching™, a simplified approach

to coaching that helps health practitioners confidently expand their reach and establish themselves as go-to-experts while reducing the risk of losing their license.

[FOR ALL OTHER BUSINESSES] Drawing on his experience as a former Fortune 100 corporate reform attorney, Jay developed the SecureScale™ method to remove the complexities and burdens online entrepreneurs face with legal compliance.

Jay is on a mission to simplify all the “legal stuff” for your online business, so that you can scale with peace of mind.
