2. Sprint planning/closing activities

Current Sprint 7.4.2 (August) → Create workitems for Sprint 7.4.2! It starts today

<https://jira.fware.org/secure/RapidBoard.jspa?rapidView=2&view=reporting&chart=sprintRetrospective&sprint=3>

Check your scheduled work-items.

3. Help Desk tickets

Check whether there are pending - or not assigned ticket in the Help Desk queue:

<http://backlog.fware.org/lab/helpdesk>

4. Topics of the day

- Next meeting on the 28th of August

From previous meetings:

- Periodic Report (for those nodes belonging to the FI-NEXT project only!) Please fill in the 1st year report at the following link :
<https://docs.google.com/document/d/1VmZZGJZXZAVI3dbMVk9ZRKJoDJD7DtHQzncNh27SSHQ/edit#> (the document is owned by Fernando and it is in suggestion mode).
- After this meeting (05/06) there will be a dedicated session with Noidia admins
- Officially deleted Genoa node from the list.
- Please compare the number of VMs in Infographic with the number you'll find with this script: `REGION_ID=RegionID; openstack server list --long -f csv --all-projects > "$REGION_ID"_vms_`date +%s`.csv`
- Heat Service in FIWARE Lab: An email sent by Josè to the maillist describes the current issue with Liberty. Any suggestions are welcomed;

- Volos is going to leave FIWARE Lab;
- NEW way of working on Agile/Sprints activities as from the email sent yesterday by Fernando!;
- Comments on the Berlin's review;
- Federico could not join for the log inspection tool;
- Monasca is back! Please check the availability of the service on your node at the following URL:
http://130.206.84.4:11027/monitoring/regions/<region_id>
- The Deliverable D4.3 and D4.7 will be merged in one single Deliverable. Both of them are about FIWARE Lab assessment, SLA and Nodes performance;
- A new tool to gather logs from FIWARE Lab Nodes has been developed by the Martel team. The documentation to configure both the agent and the syslog is available at the following link: <http://deep-log-inspection.readthedocs.io/en/latest/install/monasca-log-agent/>

For any technical doubt about that procedure please contact:
federico.facca@martel-innovate.com

5. FIWARE Lab Sustainability Model

Stefano's working on the final version of the FIWARE Lab sustainability model.

Here the shared doc used to collect contributions from everybody:
