

READ ME FIRST: Look to see if YOUR batch/lot number is on the left. If it is, add your comment on the right by **A. numbering it, B. stating the “mg” pills you are using, 3. then symptoms.** So if someone added comment 1, you do comment 2 so we'll know you are a different person from whomever wrote 1.

If you do NOT see your batch number on left, add yours below it in next box

NOTE: IF YOU HAVE LOW or HIGH CORTISOL, OR AN IRON PROBLEM, YOU WILL HAVE PROBLEMS/SYMPTOMS THAT HAVE NOTHING TO DO WITH A BAD BATCH. THUS, you may not be qualified to post here. This is ONLY about folks who know that their symptoms are due to a bad batch.

BATCH/LOT NUMBER:	EXPIRATION:	mg PILL plus COMMENT:
LF03141A	10/16	
LF03727A	04/17	1. 65 mg, hair has been falling out, wrists hurt, very bloated, terrible brain fog. 2.
I DO NOT KNOW BATCH/LOT NUMBER		1.
LFO3139A	2016	
LF03136/7/8		
LF03508A	02/2017	1. 30mg tablets, they appear to be working!
LF03506A		1. 30 mg, Struggling
