Script

This is a paid advertisement for Rumble Wallet. They're sponsoring this portion of the show.

It's **tippling money**, earmarked to support a creator on Rumble.

And honestly, that fits. Rumble's been about creators since day one, that's the whole reason they're covering your first tip to me. **And I keep every cent of it. Rumble doesn't take a cut.**

Setup's quick. Scan the QR code, sign in, and enter **Quartering10** to jumpstart your wallet with **\$10 in USAF for tipping**.

Sending it is two taps: find the Tip button and scan the QR code to open your wallet app. No fees, and it hits me in minutes, not in thirty days.

This is only live for a limited number of wallets, so don't sit on it. Scan the QR code or use the link in my description, download Rumble Wallet, and try it yourself. And don't forget to use the code **Quartering10** and claim **\$10 for tipping in USAF**.

Spend it on your favorite creator, that's me, right?

Restrictions apply. There are a limited number of entries available. Terms and conditions apply — see the description or visit rumble.com/promoofficialrules for details.
