Guided Notes: The Civil War, 1861–1865

Summary: The American Civil War was, in many ways, the costliest conflict in U.S. history. Commitment was evident on both sides, but the Union had certain advantages, particularly in leadership and strategy after 1863, that led to victory. The Emancipation Proclamation marked a significant change in the war's purpose and strategy while also promising freedom to hundreds of thousands of enslaved Southerners.

Themes:	
NAT—American and National Identity	PCE—Politics and Power
WXT—Work, Exchange, and Technology	WOR—America in the World
GEO—Geography and the Environment	ARC—American and Regional Culture
MIG—Migration and Settlement	SOC—Social Structures

Instructions: Use the Guided Notes template below to keep track of the important terms, events, and people you read about. You should create a definition to help you remember and then a brief description of the significance of the term. Look to the themes to help you figure out why they are important.

Key Terms	Theme(s	Definition/Explanation	Importance/Significance
