

THE FISHERMAN

Artist: Jack Hammer

Composers: JP Botha

Album: [Ghosts On The Wind](#)

Year: 1994

Lyrics:

On this earth and we have wandered
Seeking solace from no one but fools
I saw the truth in the eyes of a child
Once when the sky was dark blue
We travelled on but that road was long
Came to a tavern so we went in
Spent too much time there, I know,
But we found some friends
But now they're just ghosts on the wind

So pardon me kind gentlemen
But I'm wary of your company
Your looking glass tales of bravery
All your greed and your vanity
Going out into the rain
We won't see each other again
I go, find the fisherman
I go, find the fisherman

Now we almost went down in that government town
But the judge said it was a conspiracy
It don't matter none, the damage is done
But you must see how they serve their Caesar

Chorus
