

Mississippi 2018 Deer Season

['What concerns me most is the steady decline.' Deer harvest estimate remains at record low](#) September 13, 2019 Mississippi, The Clarion-Ledger

... According to the Mississippi Resident and Nonresident Hunter Survey, the deer harvest during the 2018-19 season remained at the lowest recorded level as biologists face increasing challenges in deer management. The survey indicates about 197,000 deer were taken in the 2018 season. It's a slight increase from 2017's 195,000 estimate, but because it's an estimate, the difference is negligible...
