

**My Personal Benchmarks for Metric Length**

**Name:**

| Measurement Unit | Personal Benchmarks (list as many as you can think of) |
|------------------|--------------------------------------------------------|
| Millimeters (mm) |                                                        |
| Centimeters (cm) |                                                        |
| Meters (M)       |                                                        |
| Kilometers (Km)  |                                                        |
