Course Introduction

The course information video and transcript for this course are pending.

Course Description

It is obvious that First Responders provide a service in an environment requiring special skills and knowledge. They also serve as liaison with other emergency services. This course provides an introduction to these concepts. Individual orientation to the specific systems and services with which the First Responder will be affiliated is necessary to achieve a full level of competency within a specific organization.

Course Level Objectives

The objectives for this course include the following:

- CLO1: Examine the preparatory roles of First Responders.
- CLO2: Explore the airway.
- CLO3: Analyze and assess patients.
- CLO4: Explore circulation.
- CLO5: Identify and explain illnesses and injuries.
- CLO6: Analyze childbirth and children.
- CLO7: Explore EMS operations.
