Email 2:

SL: 3 years = (You) Calisthenics Champion

2023, European Championship 1st, FIBO 2nd, SWUB V, CAB IV.

All this in the last 365 days.

But it took me 7 years to get there.

And I could've done that in 2-3 years.

But I didn't know how.

So I committed to discovering the *secrets*.

Without them, I would've still been just like you, looking for answers.

That's why I played the game the harder way. I gave it everything I had.

Or...

I could've chosen to give up and feel the unbearable pain of regret afterward.

Now, you are lucky to have someone who can pass on to you the knowledge you want and need.

You are privileged to take advantage of this starting right now!

You can choose to play the game the harder or the faster way.

It's your call.

It all starts with you deciding to commit that you will accomplish your calisthenics dreams THIS year.

You've already lost 2 weeks of this year!

With Strength,
Radoslav
