

UMYO ACCOUNTABILITY #WHY NOT CAMPAIGN

Over the past 75 years, it has become clear that politicians alone have their limitations. At UMYO, we believe that addressing our concerns effectively falls to a diverse community of all nationalities, genders, and ages. If you're committed to making a difference, spend just one hour a day exploring UMYO's action plan. This initiative supports business owners and strengthens community connections. The future of our communities and our children hinges on our collective efforts controlling and monetizing our own data!
