0-1:45 Intro

News Reporter: "This large dome which has appeared over the skies of Hawaii appears to be source of this disaster. Reports are that a few seconds after the initial light hit them, navy crew members of the John C Stennis battlegroup were immediately affected. Reports of black patches growing rapidly on their skin and the crew were hit with nausea from what appears to be intense radiation. Not even the men below in the steel bulkheads had been spared, F-15 Eagle Fighter Jets that had been in the air near the dome had simply tumbled into the ocean immediately, as if their planes had simply lost power. There are no reports yet of survivors or anyone parachuting to safety. At current time there is a reported 4,590 missing or presumed dead from this disaster.

1:45-2:57 (First Verse)

People of Earth

You're going to die

Up there's the hole
ripped out of the sky

2 worlds collide

but only one will survive
out pours radiation

from the equestrian nation

Even unicorn magic
results in something quite tragic
destroys all your technology
and tears apart your biology

But your fate is not the end
We came here as friends
In our dna is the cure
For your lives to endure

And We Are the Conversion Bureau
And We Are the Conversion Bureau

2:57-3:47 Post-Chorus

3:26-3:48 Celestia: "President Foster, Nothing can return the lives of those lost, but know that Equestria extends a hoof in friendship, to mend the wound that has marked the start of our two races' co-existence. I hope that you will be willing to work with us to understand how our worlds came to meet and forge a brighter future together."

3:47- 5:05 Riots in Rio

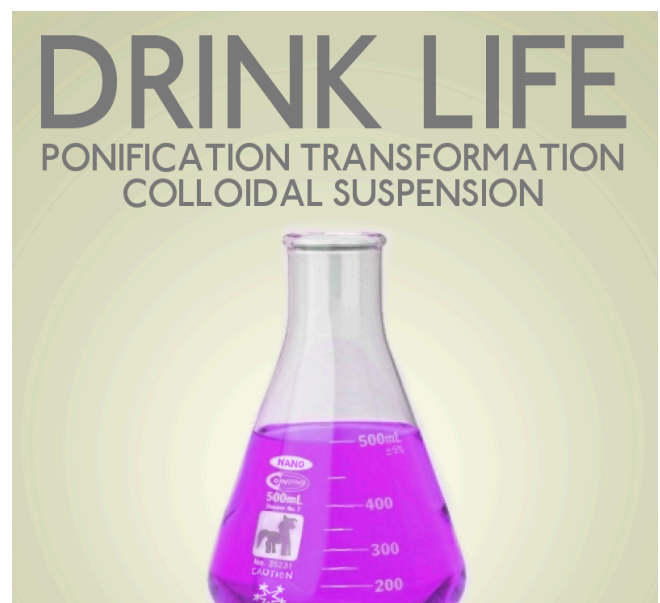

4:06-4:26 "This is CNN Breaking News; we now have live video from our reporters on the ground in Rio de Janeiro, where, as you can see, massive rioting has begun as the food shortages continue. A short statement from President Henriques was heard earlier, which denounced the rioters as supporters of the Devil's minions, which we believe to mean Princess Celestia and the Equestrians. "

4:47 - 5:03 Breakdown

Priest: "You understand why this must be done, yes? The merciful God in His wisdom put Man upon this earth to govern it and all that walk upon it. For another species to hold itself as Man's equal is blasphemy against His will."

5:05- 6:06 (2nd Verse)

We sense your distrust
Some see evil in us
But a change soon must come
put down your guns

Violence and division
Is a conscious decision
And its one we don't share
In either stallion or mare

Soon these riots will end
And we came here as friends
The serum's the cure
For your lives to endure

And We Are the Conversion Bureau
And We Are the Conversion Bureau

6:06-6:45 Post Chorus

6:26-Celestia: "I just received a letter from Twilight Sparkle and her team. Despite their best efforts it appears there is no way to integrate magic and technology. If exposed to any significant amount it either shuts down or overloads. Wait what's the matter.

6:38 -6:48 Foster: " "it appears there's a much bigger problem than we thought. Thaumatic radiation is not only appearing more and more often around the world, it's also pouring out of the Dome. In eight weeks it will reach Hawaii. Celestia it's expanding"

**TIME
IS RUNNING OUT.**

ZERO POINT MEANS ZERO SURVIVAL
Ponification is the only escape.
The Worldgovernment has determined that
Conversion and emigration to Equestria is
the only option. Go Home. Go Pony.

In cooperation with the Royal Diarchy of Equestria 

6:45-7:37 New Bridge

7:15-7:37 Dr. Ross. "I'll need to run more tests to confirm this, but I'd hazard a guess that this unique third strand in equestrian DNA, that glow is in fact thaumatic energy. Therefore, this strand here is what allows you to coexist and interact with the energy that permeates your world. If we can figure out how to replicate this strand, then we may be able to create something to allow humans to at least survive in the presence of magic."

7:37-7:59 Bridge section

7:37-7:46 Twilight: "We tried exposing a sample of human blood cells with our DNA added to magic, but when we looked at the sample... it was our DNA. All the cells looked like they had just been collected from any one of us. If I understand it right, through this process the human DNA would change to be pony DNA,"

7:46 Guitar Lead Part comes in

7:59-8:20 All instrumental

8:20-40 Celestia: "If we go through with this, it will be offered to them as a choice. There may yet be a means to allow the humans to survive. We cannot force that change upon them. They are living creatures, and above all, they must be allowed a choice."

8:40-9:00 Chorus 3

9:00-9:50 Bridge

9:50-10:10 Chorus 4

10:10-11:00 The choice

Miguel (or anyone) : "I sit here with 3 decisions. I can fight this alien race that emerged at the beginning of this disaster. The ones that walk on four legs and offer to help. .I can wait it out and watch as one world cancels out the other, and human existence is wiped out from this planet by this unstoppable event. Or I can choose conversion and join their ranks, change my very form, and perhaps even my personality to survive. The choice is mine."
