Lost Wood ideas

Ancient Sheikah compound
Over 10,000 years ago there was an ancient Sheikah science facility devoted to humanoid and bio engineering. The facility was so well hidden that it was spared the king's order to the sheikah to bury all their technology. ~~The Kokiri, the korok and the many other strange creatures of the lost woods are the by product of this facility and the real reason that people who get lost in the woods are transformed and never return. Great deku tree is actually the organic computer at the center of the facility.~~
Some of the odder creatures of the land originated her, Like Octorocks. The sheikah still use the facility to this day and Purah can be found there.

No redead, but re-sexy
Instead of getting turned into skeletons (stalfos) or any other crazy creatures, people that get lost in the woods are turned into Forest Nymphs or other sexy creatures.

Location
The Lost woods would have both Link's house and the Sheikah Village inside of it. Both Link and the Sheikah are the only ones immune to the Forest's effects. Women who join links harem gain this same immunity. Kakariko Village borders the forest.

Kokiri Changes

Important note - Due to the nature of the source Kokiri, some change is needed. So they will most likely not be eternally children, even from the very start. (My basic reaction http://i49.photobucket.com/albums/f278/katietiedrich/comic296_zps6463473c.png)

Forest Nymphs
Kokiri are a race of all female forest nymphs, short and busty. Similar to female Draph from Grandblue Fantasy (https://1d4chan.org/wiki/Draph)

~~Dryads~~
~~A mix of the Kokiri and the Korok. Tree girls basically. Some kind of korok seed angle. Link finds them hidden and has sex with them?~~

~~Fairy Maidens~~
~~A step above normal fairy but below great fairy. All females of course.~~

Saria
Saria would not have to undergo too many story changes. The only difference is that it's not so much she looks too young for Link but that her frame is too small to be able to take all of Link's manhood. After her great fairy transformation she can.

Great Deku Tree ideas

Great Deku Fairy
Instead of a great Deku tree there is a great Deku fairy. She is not like the other great fairies based on the OOT design but more like the BOTW great fairs and linked to a location. Maybe more Dryad like than the other fairies. She would be larger and more milfy than other great fairies. (Ancient fairies not great fairies?)
