Subject: At that moment it clicked...

All it takes is one realization.

I grew up watching superheroes my whole life.

I'd ask myself how can I become like them.

Brave.

Courageous.

Respected.

They all had ONE thing in common.

A superpower.

Some flew, had superhuman strength, or even shot flames. (Imagine shooting flames.. So cool)

I couldn't compete with that.

What was my superpower?

It clicked...

I have the power of my brain.

With the little attention I paid in school, I knew there were people capable of doing superhuman things with their minds.

The question now was, how'd they do it?

Fortunately, we found out and you will too.

Discover the answer [here](#).

P.S.: What do you think your superpower is? We would like to know what you think.

We read every email, even if we don't respond - so make sure to hit reply.
