CS 3200 - Database Design - Fontenot
## Homework 06 - ER Modeling & Relational Mapping
Regular Submission Deadline: Wednesday Apr 19 @ 11:59 to GradeScope
Extra Credit (3 points total) Early Submission Deadline: Monday Apr 17 @ 11:59 to GradeScope
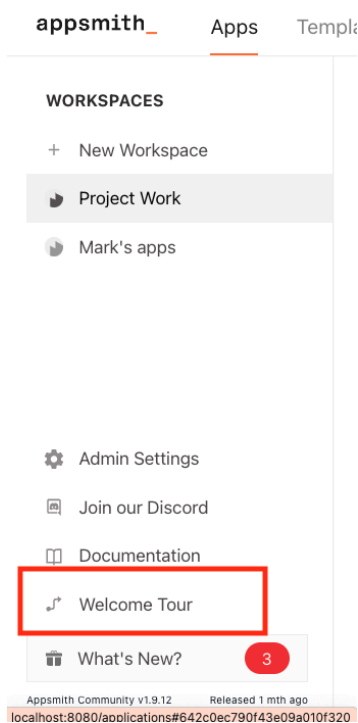

You will submit this assignment as a single PDF to GradeScope. It is vitally important that you complete the submission process on GradeScope wherein you indicate the location of each of your answers for the assignment. Failure to do so will result in a grade of 0 on the assignment.

In this homework assignment, you'll go through the AppSmith Welcome Tour and show screen shots of the completed application.

To access the Welcome Tour, first go to the main AppSmith Apps page. If you're inside your project App, click on the AppSmith icon in the top left of the window.

Once you're at the main page, click on Welcome Tour in the bottom left of the window.

This will launch the tutorial where you'll build a Customer Support Dashboard.

It uses a sample Postgres database. (Don't worry, you don't need to install anything… it is just a sample.)

Go through the 9 steps of the tutorial.

Once you've complete the tutorial, do the following:
1. Change the name of one of the first 10 users to your first and last name using the Customer Update Form.
2. (Don't change the email address or country).

3. Take a screenshot of the entire browser window showing the Customers form with your name in one of the entries. Please highlight your name so we can find it quickly.
    a. Your screenshot needs to include the entire browser window including the address bar where the page URL is located.
4. Paste the screenshot below.
5. Download a PDF of this document and upload/submit to GradeScope.
6. Congrats! You're Done!!
