Title of Unit: Waves: Light and Sound		Number of Weeks/Days:	
Standards:		Assessment:	Resources:
1-PS4-1 Plan and conduct investigations to provide evidence that vibrating materials can make sound and that sound can make materials vibrate.		Teacher Observations Student Participation	
1-PS4-2 Make observations to construct and evidence-based account that objects can be seen only when illuminated.			
1-PS4-3 Plan and conduct an investigation to determine the effect of placing objects made with different materials in the path of a beam of light. 1-PS4-4 Use tools and materials to design and build a device that uses light or sound to solve the problem of communicating over a distance.
