

(This is a product description of someone's Ecom store. It is about soap)

## **“Himalaya blessings” soap bars.**

### **Stage 1: Exfoliating Bar**

We will try to explain vividly what this soap is all about...

Combination of Juicy slice of orange, rich lavender and fresh picked peppermint results in a beautiful and nose pleasing smell that lasts for hours.

Oh, let's not forget little grains of Himalayan salt, brough straight from top of the Himalayan mountains. One of the most natural ways of getting all the dirt out with ease.

Soap market has never thought of combining these 4 ingredients. But we sure did, and it turned out pretty lovely.

### **Stage 2: Moisturizing Bar**

Hand picked from the wild, white yarrows, bright red rosehips, and seasonal dandelions are infused into the Bar. Dangerously delicious smell makes you want to bite yourself sometimes (It happens, be careful)
