

## 2020-2021 Kazoku Scoring

This year, we decided to create a scoring system based on the frequency of how many times a Kazoku meets as well as the attendance at those events. Because all of our events are currently run online at the moment, we've found the competition to be a good way to incentivize families to get together and meet! The scoring is outlined below:

### Base Rules:

For every meeting, each kazoku will be able to earn up to a max of 15 points. The full 15 points can be earned if all of these requirements are met:

- The percentage of kazoku members present \* 10 (up to 10 points)
  - i.e. 6 out of 8 people present →  $6/8 * 10 = 7.5$  points → rounds up to 8
  - 5 out of 7 people present →  $5/7 * 10 = 7.1$  points → rounds down to 7
- All kazoku members are present! (2 extra points)
- New game you've never done before! (3 extra points)
- New activity you've never done before (not game) (6 extra points)

### Frequency of meetings:

- 3 times within a calendar month: +2 pts
- 4 times within a calendar month: +3 pts
- 5 times within a calendar month: +4 pts
- 6 times within a calendar month: +5 pts
