

Ghost Mannequin Service and Photo Manipulation Services

The Ghost Mannequin Service is the most effective way of manipulating a Ghost Mannequin. Usually a mannequin is dressed as a doll or fancy dress maker in full costume dummy which is used by the fashion associated sales persons and tailors to demonstrate their dress product to their prospective buyers. This form of advertising has always worked since people associate wearing a dress or fancy dress to be socially fashionable. It is quite difficult to find people in a conventional setting who do not dress up and often a mannequin dressed in such a way is an excellent subject matter for a Ghost Mannequin Service advertisement.
