Abstract

Written in **English only**, one paragraph, max **250 words**.

Font: Times New Roman, 11 pt.

Content must include:

Problem statement

Methods

Scientific findings

Conclusion

Keywords: Max 5, separated by semicolons, 10 pt.

Structure of Manuscript

1. Introduction

Background and state of the art.

Gap analysis and novelty of research.

Importance and objectives of the study.

Literature review is not allowed; integrate references into the state of the art.

2. Methods

Research design, location, duration.

Population and sample.

Data measurement and analysis.

Ethical clearance details.

3. Results and Discussion

Present findings clearly with supporting data.

Explain scientific meaning (why/how results occurred).

Compare with previous studies.

Use tables/figures with explanatory text.

Discuss significance and consistency with other research.

4. Conclusion

Must directly answer objectives/hypotheses.

Provide scientific justification.

Include recommendations for midwifery practice and future research.

Written in paragraph form (no numbering).

5. References

Minimum **10 references**.

At least **80% from primary sources** (scientific journals).

Sources must be published within the last **10 years**.

Use **Vancouver style**.

Reference management software recommended: Mendeley, EndNote, Zotero.

Formatting Notes

Avoid duplication/repetition of previously published work.

Tables and figures must be accompanied by explanatory text.

Manuscript must be concise, clear, and scientifically rigorous.
